EN — SAFETY INSTRUCTIONS

Read and observe the following instructions for all potentially applicable parameters & specifications with respect to per International norms and safety standards. However not all of them may be applicable for the product you purchased. Please refer to the icons on the additional Manual. As for the ones which are particularly applicable for this product.

Please read and understand all safety, installation, usage and functioning of the product, always follow these instructions carefully and keep them for future reference.

Always switch off the power prior to installation, maintenance or repair activities.

Always consult a professional electrician in advance, for choosing the right fitteiner for a secure mounting of the product. Take into account the weight of the product and the material of the mounting surface.

If in doubt, consult a qualified or licensed electrician or contact your retail outlet. Ensure the product is always installed according to relevant regulations. Certain regulations indicate that electrical products must be installed only by a licensed electrician (e.g. Part P for the UK, AS/NZS3000 for the AUSTRALIA / NEW ZEALAND).

Always tighten the terminal screws firmly, especially attachments for low voltage wiring (12V) (if applicable). It is highly recommended to regularly check and re-tighten the terminal screws over time + check the wiring for signs of wear. Poor tightening of the wiring before installation (fuse, fits loose+ 1) and if protection cracks / pollution/ green (earth).

Maintain interior lighting with a dry cloth duster; do not use abrasives or solvents. Avoid liquids on all electrical parts.

Mount wall lights out of children's reach.

Mount the product on a non-combustible surface; this surface must be bonded to the protective earth conductor or to the equipotential bonding conductor of the installation.

Always consider all technical specifications of the product. Verify stated icons on the identification label on the product and icons shown in part of these safety instructions.

Immediately replace a cracked or broken transparent cover and only use manufacturer approved parts.

Keep packaging material out of children's reach. (e.g. plastic bags, ...)

Disposal of the product: Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2012/19/EC. Please inform yourself about the local separate collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your product will help prevent potential negative consequences for the environment and human health.

ATTENTION: Before you fill out the explanations with numeric reference to the icons

01- The product is suitable for mounting on normally flammable surfaces.

02- The product is suitable for mounting on normally flammable surfaces.

03- The product is not suitable for direct mounting on normally flammable surfaces.

04- The product is only suitable for mounting on fire safe materials.

05- The product is only suitable for mounting on the wall.

06- The product is suitable for mounting on the ceiling.

07- Always take into consideration the minimum distance, as indicated on the icon, between the lamp and the surface.

08- IP41: The product is protected against solid objects.

09- IPX3: The product may be exposed to raindrops (falling drops under a maximum angle of 60° to the vertical axis).

10- IPX4: The product is splash-proof: it may be exposed to splashing water coming from any direction.

11- IPX5: The product is protected against water jets.

12- IPX7: The product can be installed into the ground.

13- IPX8: The product is protected against immersion up to the indicated depth.

15- IPX5: The product is dust protected.

16- IP6X: The product is dust tight.

18- Immediately replace a cracked or broken safety glass and only use borosilicate parts of the same dimensions, with a minimum thickness of 2 mm.

19- Protection class I: the product or component provided with double or reinforced insulation.

20- Protection class II: the product or component is provided with double or reinforced insulation and has no safety earth connection.

21- Protection class III: the product or component is provided with safety extra low voltage supply (<60Vdc / <42Vac).

22- Ship the wire as indicated on the icon.

23- The earthing wire always has to be longer than the brown line (L) and blue neutral (N) wire.

24- The use of the supplied heat-resistant sleeving is required over the unstripped wire lengths.

25- Connection: Use only the supplied wire to connect the product to the mains.

26- A connection: In case of damage to the wire, it has to be replaced by a wire of the same type.

Y-connection: In case of damage to the wire, it has to be replaced only by the manufacturer, distributor or by an expert, to avoid risks.

Z-connection: The external flexible cable or cord of this luminaire cannot be replaced. If the cord is damaged, the lamp must be discarded.

27- MAX. ... W: only use bulbs suitable for this product and lamp within the maximum specified wattage.

28- The product is only suitable for reflector bulbs.

29- The product is in class of safety: CLI, CLII, CLIII, CLIV, CLV, CLVI, CLVII.

30- The product is not suitable for CFL-i or LED bulbs (e.g. E14, E27, GU10, GX53, ...)

31- The product is not suitable for E14 or E27 bulbs (e.g. E14, E27, GU10, GX53, ...)

32- The product is not suitable for dimmers.

33- Only use a globe bulb that has the size of the indicated diameter. Never use a standard incandescent bulb.

34- This product is only suitable for candle shaped bulbs.

35- Cable clamp: Use the cable clamp only for a single wire or a low pressure bulb. An extra safety glass is not necessary.

36- Capsule and linear halogen bulbs may not be touched by bare hands.

37- The product is equipped with a safety capsule. In case of a broken glass bulb replacement, the internal fuse has to be replaced. This must be done by a qualified electrician if contact with internal wiring can occur.

38- The product is dimmable with the appropriate dimmer and is not included. Dimmer connected to electrical installation of the home. For reference please visit "www.philips.com". Consult a qualified electrician for choosing the suitable dimmer type.

39- The product is working with a safety transformer. Replace a broken transformer only with a transformer specified by the manufacturer. Consult a qualified electrician or your retail outlet.

40- Product for spot service.

41- Product with time and light setting options. Minimum and maximum is indicated on the icon.

42- The product can be mounted on a maximum height of 6 m.

43- For reliable operation, you have to mount the product on the specified height as indicated on the icon.

44- Ensure not to drill through electrical wires or any other structures in the wall or ceiling during installation.

45- If the product is mounted onto a ceiling box or wall-box, it is obliged to cover the box with a lid first. (e.g. in case of a flammable ceiling)

46- Electrical wiring may never be in contact with the product. Ensure sufficient space between product and the mounting surface!

47- Parts of this product may get hot.

48- Keep the product out of children under 7 years.

49- Mount the product out of arm reach. (e.g. > 2.5 m)

50- Mount the product out of arm reach, only installation by means of a tool.

51- The product is not suitable for mounting in the direction of the collection – in opposite direction, product and tested in accordance with international/europen safety standards (e.g. IEC/EN60598). ☇ ⇒ We warrant that the product is free from defects in materials and workmanship. Subject to the conditions hereof, we will repair or replace (whichever is deemed appropriate) any defective product. In case the product turns out to be defective, we will arrange for repair or replacement of the product by our service organization, provided the product has been used in the manner specified herein. The product is guaranteed against defects in workmanship for a period of 2 years from the date of purchase, trade or industrial use. Any damage caused to the product in extreme conditions (coastal areas, industrial environments, fumes, pollution, etc) or improper use (misuse, abuse, neglect, etc) is not covered by this warranty. Damage caused by the product in extreme conditions (coastal areas, industrial environments, fumes, pollution, etc) or improper use (misuse, abuse, neglect, etc) is not covered by this warranty. Proof of purchase may be required before any warranty claim can be accepted. Any replacement product or component will be guaranteed for the remainder of the original guarantee period. Other rights and claims under the terms of the sale of the product, such as claims for consequential damages, are not covered by this warranty. Repairs or replacements under this warranty do not extend the original guarantee period. Parts or components replaced under this warranty become the property of Philips. Warranty claims must be made within the guarantee period. Defective products or components must be returned to the place of purchase or to Philips. Please refer to the icon and the explanation of the icon for the specification of the product.

EN — SAFETY INSTRUCTIONS

Read and observe the following instructions for all potentially applicable parameters & specifications with respect to per International norms and safety standards. However not all of them may be applicable for the product you purchased. Please refer to the icons on the additional Manual. As for the ones which are particularly applicable for this product.

Read and understand all safety, installation, usage and functioning of the product, always follow these instructions carefully and keep them for future reference.

Always switch off the power prior to installation, maintenance or repair activities.

Always consult a professional electrician in advance, for choosing the right fitteiner for a secure mounting of the product. Take into account the weight of the product and the material of the mounting surface.

If in doubt, consult a qualified or licensed electrician or contact your retail outlet. Ensure the product is always installed according to relevant regulations. Certain regulations indicate that electrical products must be installed only by a licensed electrician (e.g. Part P for the UK, AS/NZS3000 for the AUSTRALIA / NEW ZEALAND).

Always tighten the terminal screws firmly, especially attachments for low voltage wiring (12V) (if applicable). It is highly recommended to regularly check and re-tighten the terminal screws over time + check the wiring for signs of wear. Poor tightening of the wiring before installation (fuse, fits loose+ 1) and if protection cracks / pollution/ green (earth).

Maintain interior lighting with a dry cloth duster; do not use abrasives or solvents. Avoid liquids on all electrical parts.

Mount wall lights out of children's reach.

Mount the product on a non-combustible surface; this surface must be bonded to the protective earth conductor or to the equipotential bonding conductor of the installation.

Always consider all technical specifications of the product. Verify stated icons on the identification label on the product and icons shown in part of these safety instructions.

Immediately replace a cracked or broken transparent cover and only use manufacturer approved parts.

Keep packaging material out of children's reach. (e.g. plastic bags, ...)

Disposal of the product: Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2012/19/EC. Please inform yourself about the local separate collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your product will help prevent potential negative consequences for the environment and human health.

ATTENTION: Before you fill out the explanations with numeric reference to the icons

01- The product is suitable for mounting on normally flammable surfaces.

02- The product is suitable for mounting on normally flammable surfaces.

03- The product is not suitable for direct mounting on normally flammable surfaces.

04- The product is only suitable for mounting on fire safe materials.

05- The product is only suitable for mounting on the wall.

06- The product is suitable for mounting on the ceiling.

07- Always take into consideration the minimum distance, as indicated on the icon, between the lamp and the surface.

08- IP41: The product is protected against solid objects.

09- IPX3: The product may be exposed to raindrops (falling drops under a maximum angle of 60° to the vertical axis).

10- IPX4: The product is splash-proof: it may be exposed to splashing water coming from any direction.

11- IPX5: The product is protected against water jets.

12- IPX7: The product can be installed into the ground.

13- IPX8: The product is protected against immersion up to the indicated depth.

15- IPX5: The product is dust protected.

16- IP6X: The product is dust tight.

18- Immediately replace a cracked or broken safety glass and only use borosilicate parts of the same dimensions, with a minimum thickness of 2 mm.

19- Protection class I: the product or component provided with double or reinforced insulation.

20- Protection class II: the product or component is provided with double or reinforced insulation and has no safety earth connection.

21- Protection class III: the product or component is provided with safety extra low voltage supply (<60Vdc / <42Vac).

22- Ship the wire as indicated on the icon.

23- The earthing wire always has to be longer than the brown line (L) and blue neutral (N) wire.

24- The use of the supplied heat-resistant sleeving is required over the unstripped wire lengths.

25- Connection: Use only the supplied wire to connect the product to the mains.

26- A connection: In case of damage to the wire, it has to be replaced by a wire of the same type.

Y-connection: In case of damage to the wire, it has to be replaced only by the manufacturer, distributor or by an expert, to avoid risks.

Z-connection: The external flexible cable or cord of this luminaire cannot be replaced. If the cord is damaged, the lamp must be discarded.

27- MAX. ... W: only use bulbs suitable for this product and lamp within the maximum specified wattage.

28- The product is only suitable

39- Výrobek do nárazových podmínek.
40- Výrobek s hodnotami nastavení Času a světla. Minimum a maximum je uvedeno na ikoně.
41- Výrobek s ochranou proti vniknutí cizích předmětů.
42- Výrobek s ochranou proti vniknutí vody do vnitřního prostoru výrobku v určitém množství na ikoně.
43- Ikona udává také maximální a minimální dobu ponoření.
44- Standardní ikona pro zvukový podnět, zapnutí/vypnutí zvuku, nastavení hlasitosti zvukové ikony.
45- Tento výrobek musí být nainstalován vodorovně. Chráněn z úpadů dešti (horizontal, nemá být zhlaví dešťovou vodou, jen vlhkostí).
46- Upozěte na, že výrobek nevrtat ani nevkládat do zdi, protože můžete poškodit kabel v zdi.
47- Pokud se výrobek montuje do stropní nebo nadhlavní schránky, je nutné krátký nejkratší kabel vinutí zajistit.
48- Elektrické vedení nesmí nikdy být stlačeno nebo ohnuto nebo nesmí vyrobkem a montážním povrchem dotýkat ostrých hran. Chraňte kabel před teplem.
49- Výrobek není vhodný pro venkovní prostory.
50- Nemontuje výrobek mimo dosah rukou (IK1: pro děti, pro ostatní).
51- Nemontuje výrobek mimo dosah rukou (IK1: pro děti, pro ostatní).
Výrobek je také vhodný ostatní výrobky z kolekcí je navrhen, vyroben a testován v souladu s evropskými a mezinárodními bezpečnostními standardy pro domácnosti. Výrobek je v souladu s EU Směrnice o nízkém napětí, Směrnice o elektromagnetické kompatibilitě a Směrnice o omezení používání některých nebezpečných látek v elektrických a elektronických zařízeních. Zařízení splňuje požadavky na ochranu životního prostředí a zdraví. Výrobek je v souladu s EU Směrnice o obalech a obalových materiálech. Výrobek je v souladu s EU Směrnice o nakládání s odpadními elektrickými a elektronickými zařízeními. Zařízení splňuje požadavky na ochranu životního prostředí a zdraví. Výrobek je v souladu s EU Směrnice o rádiových zařízeních. Výrobek je v souladu s EU Směrnice o ekodesignu. Výrobek je v souladu s EU Směrnice o nařízení o stavebních výrobcích. Výrobek je v souladu s EU Směrnice o strojních zařízeních. Výrobek je v souladu s EU Směrnice o tlakových zařízeních. Výrobek je v souladu s EU Směrnice o hračkách. Výrobek je v souladu s EU Směrnice o zařízení pro plynná paliva
