WELCOME TO LEGO® ART. READY TO DIVE IN?

The man in the armour

Iron Man started off as a dare. Comic creator Stan Lee wanted an anti-rebel his young readers would despise at first, then fall in love with. And that's how Tony Stark was born, a rich, spoiled weapons dealer swimming against the current of 1960s and 1970s youth counterculture, with a powerful mechanised suit of armour to boot. But if Super Heroes are known by their suits, they're defined by their one fatal weakness, and Stan Lee gave Iron Man that most human of flaws – a literally broken heart. Lee's gamble paid off: The Iron Man suit is a reminder of the power of that vulnerable heart, and the world cannot get enough of Tony Stark.

MARK III

This suit version takes centre stage in the first Marvel Studios' Iron Man film (2008). Made from a gold and titanium alloy, the Mark III armour offers super strength and durability, flight capabilities, and it's – quite crucially – ice-resistant.

HULKBUSTER MARK I

Created by Tony Stark and Bruce Banner as a backup containment plan in the not-so-unlikely event that the Hulk went off on an uncontrolled rampage, and featured in the 2015 Marvel Studios' Avengers: Age of Ultron film.

ARMOUR TYPE

Extra Heavy-Duty Modular Armour

MARK LXXXV

Iron Man's 85th, most advanced and final armour. The suit worn by Tony Stark in his ultimate battle against Thanos has appeared in the 2019 film Marvel Studios' *Avengers: Endgame*.

Notes from the designers

Before we started physically building anything, we developed the design digitally through multiple loops, slightly reworking each small detail. Then by comparing the different iterations together in a grid, we started picking the best features from each and merging them into the perfect final design.

Translating a realistic photo into LEGO® elements was a challenge – your impulse is to simplify and smoothen the lines, but then suddenly you're making 'comic book Iron Man' rather than the film version you're aiming for. We worked hard to correctly capture the lighting and the reflections of light on the metal armour, until we arrived at the final designs.

FROM SQUARES TO CIRCLES

The first Iron Man mosaic we worked on was the Hulkbuster, using square tiles to build the model. The square elements made it look really pixelated, so we switched to round elements, which had a huge positive impact – not only visually, but also in the user experience, because the round elements are much easier to place on the canvas.
