- Keep the „-“-button pushed to lower the volume. Keep the „+“-button pushed to raise the volume.

GB Getting started and operation

Slot for memory cards and USB flash drives: The device is supporting micro SD, micro SDHC and micro SDXC memory cards. Insert a memory card, with the contacts up, into the slot. The card will be latched inside the slot and you will hear a „click“.

3.5mm AUX I Line in for music playback via connected devices;
FM antenna output: Use the 3.5mm AUX cable as antenna while using the FM tuner mode

Built-in microphone for hands-free function

On and off switch. Slide the switch to the left to turn on the speaker. Slide the switch to the right again to turn off the device.

Micro USB port for charging the device.

GB Playback mode | Bluetooth

1. Turn on the speaker. It starts in the Bluetooth mode and searches immediately previous Bluetooth settings. If there is no connection, it searches for new Bluetooth devices.

2. Turn on your device and be sure Bluetooth is activated to pair it with the speaker. The speaker's Bluetooth name is „MR734“. As soon as your device has been connected successfully, you are able to stream your music. You can use your connected device or the navigation panel on the speaker for music control.

Note: Each device needs to be paired once with the speaker. The speaker searches immediately previous Bluetooth settings in future and devices will be paired automatically.

GB Playback mode | Memory card slot

1. Turn on the speaker and insert a memory card, with the contacts up, into the memory card slot. The slot will latch the card and you will hear a „click“ if it is inserted correctly.

2. The memory card will be detected automatically and the speaker starts to playback your music. Use the navigation pannel for music control. Push the memory card carefully to remove the card from the slot again.

Note: If the speaker will be turned off or if you switch the playback mode, the speaker will memory the last played title and starts to playback this title if you select the playback mode again.

GB Playback mode | USB flash drive

1. Turn on the speaker and connect an USB flash drive into the USB port of the speaker.

2. The USB flash drive will be detected automatically and the speaker starts to playback your music. Use the navigation pannel for music control.

Note: If the speaker will be turned off or if you switch the playback mode, the speaker will memory the last played title and starts to playback this title if you select the playback mode again.

GB Playback mode | FM tuner

1. Plug in the 3.5mm AUX cable and turn on the speaker. Keep the „Play | Pause“ button pushed once to switch to the FM tuner mode.

2. Start and stop the automatic FM tuner channel search by pushing the „Play | Pause“ button. To adjust or search a radio station manually, use the buttons „Back“ and „Forth“.

Note: For using the FM tuner mode, the AUX cable need to be connected as antenna. If the speaker will be turned off or if you switch the playback mode, the speaker will save the last selected radio station. As soon as you turn on the device and switch to the FM mode again, the speaker will resume streaming the last radio station. There is no need to start the automatic FM tuner channel search again.

GB Playback mode | 3.5mm AUX line in

1. Turn on the speaker and plug in the 3.5mm AUX cable. The speaker will switch automatically to the AUX playback mode.

2. Connect your device by using the AUX cable to the speaker and start to stream your music. Use the music player of your device for music control. The volume can be lowered and raised by the navigation panel of the speaker and/or the connected device.

GB Explanation: Hands-free function

Push the button to answer incoming calls

Push the button during a call to redirect the call to your paired device.

Connect your smartphone or tablet via Bluetooth with the speaker in order to use the hands-free function. Therefore please switch to the Bluetooth mode:

- To answer a call, simply press the "Play | Pause" button.
- Push the "Play | Pause" button during a call to redirect the call from the speaker to your device. Push the button again to redirect the call back to the speaker in order to use the hands-free function.

GB Explanation: LED indicator lights and acoustic signals

Explanation of LED indicator lights:

- LED indicator is flashing rapidly: The speaker is running in the Bluetooth-mode and is searching for previous Bluetooth settings; The speaker is ready for getting paired to a device; The connected device is out of range.
- LED indicator is flashing: The speaker is streaming music via Bluetooth, memory card, USB flash drive, AUX line in or FM tuner.
- LED charging indicator is red: The indicator is red when speaker is charging; It turns off when the speaker is fully charged

Explanation of acoustic signals:

- Switching the playback mode: You will hear an acoustic signal when the playback mode will be changed.
- Maximum volume level reached: If the maximum volume level is reached, you will hear an acoustic signal.
- Low battery warning: If the speaker's battery is almost empty you will hear an acoustic warning signal.

GB Explanation: Charging the speaker

- Plug the charging cable into the micro USB port of the speaker and connect it to a bus-powered USB port on your computer.
- Plug the charging cable into the micro USB port of the speaker and connect it with an external power supply with USB port.

When the speaker is charging the indicator is red. Once the speaker is fully charged, the LED indicator turns off.

Note: Turn off the speaker while charging to speed up charging time.

GB Warranty | Support service | Package contents | Intended use

Warranty

MediaRange GmbH assumes no liability and provides no warranty for damage resulting from improper installation/mounting, improper use of the product or from failure to observe the operating and/or safety instructions.

Support service

If you have any questions about our products, please contact MediaRange Support Service:

GB Warranty conditions

The warranty only covers material and production defects. The free warranty service covers the repair or replacement of defective parts.

All MediaRange products are subject to constant quality inspections and the legal warranty period applies, of course, from the date of purchase. Please be sure therefore to save the sales receipt as proof of purchase.

Please understand that we cannot render any warranty services, e.g. in case of:

- Misuse or improper handling, installation or use
- Disregarding of the operating and safety instructions
- Damages, scratches or wear
- Modifications, manipulation or repairs by third parties
- Damages through force majeure or transport

In case of a claim, please proceed as follows:

- Only returns accompanied with all accessories and sales receipt are accepted.
- Contact the MediaRange Support service by e-mail or via our service hotline.
- Please make sure that the package is packed safe for transport.
- Please stamp the package and send it to:

MediaRange GmbH, Zum Quellenpark 29, D-65812 Bad Soden a.Ts.

GB Important notes

Please note that any warranty claim shall expire if the housing of the speaker has been opened. This product is not meant for a commercial use or for medical and special applications, where the failure of the product may cause injuries, death or significant material damages. The warranty only covers the replacement of this MediaRange product.

The warranty is not applicable for normal wear & tear resulting from erroneous, improper use of the device, negligence, accident or incompatibility. There are no warranty claims if the user manual is not followed and if the device is damaged through improper use or defects caused by other devices. There are no warranty claims if the product is exposed to shocks, electrostatic discharges, heat or humidity effects beyond the product specifications. MediaRange is not liable for any collateral damages or consequential losses, for violation of warranty conditions or any other losses irrespective of the cause. MediaRange GmbH is not liable for the loss of data in units sent to us.

To improve products performance, the content of this user manual may be revised without prior notice.

All brands and product names referenced in this user manual are property of their respective owners and referred to for descriptive purposes only.
