GEFORCE RTX 30 SERIES INSTALLATION OF THE CARD STAND

STEP 1: Take out 2 screws and card stand from the box;
Screw specification : $\varnothing 4 \times 4.5 \times M2.5$ CMH.

STEP 2 : Find the 2 screw holes as shown in the picture,
then attach the card stand to the VGA card and
tighten the screws.

Tighten the screws and mount to the PC case

*** CAUTION:**

For the graphics card stand installation, please only use the screws bundled together.
Do not use foreign screws that were not bundled together as this may cause physical damage
on the PCB. We reserve the right to void the warranty and/or may charge for repair cost.

*The above instruction applies to RTX 3090 and 3080 iChill X3/X4 models
