

A RITE OF PASSAGE FOR EVERY LEGO® STAR WARS™ FAN

Even after four decades, the Rebel Alliance keeps growing in our galaxy as the *Star Wars*™ saga continues to excite new generations of fans. And where would the Alliance be without X-wing starfighters? These reliable starships have brought formidable Imperial forces to their knees in movies as well as other series like *Star Wars Rebels*, *The Mandalorian* and *The Book of Boba Fett*. The most memorable scene is, perhaps, the trench run in *A New Hope*, when Luke Skywalker in his X-wing launches a successful attack on the Death Star. Just as this scene was a rite of passage for young Skywalker, building your first LEGO® X-wing starfighter is a special occasion for many fans. Whether you're new to the fleet or have piloted others before, we're honoured to have you on our team.

Enjoy building!

Jens Kronvold Frederiksen
Creative Director, LEGO® Star Wars™

SPEED, PRECISION AND FIREPOWER

Like many other *Star Wars*™ starships and vehicles, X-wing starfighters are marked by the wear and tear of missions and battles. (As are their astromech droid co-pilots.) Nevertheless, these modestly sized crafts are no small feats of engineering and are favoured among Rebel pilots as sturdy, reliable and chock-full of character. Built for battle, with four laser cannons, two proton torpedo launchers and the ability to activate hyperdrive, they can manoeuvre with speed and precision and were instrumental in the successful evacuation of the Rebels' Echo Base on Hoth.

For the first movie scale models, Lucasfilm Ltd. model designers originally based the body of the X-wing starfighter on dragster car cockpits. While most scale models were created using plastic or metal, the X-wing starfighter models were carved out of wood and decorated to achieve the rugged look of aged starships riveted together, rather than a fleet of sleek, identical modern designs. It wasn't unusual for different models to be used to represent the same X-wing starfighter in various shots, and the full-scale models were highly detailed to add authenticity and depth to the closeup shots of Rebel pilots on the ground and in dogfights.

'RED FIVE STANDING BY.'

The T-65 X-wing starfighter is a mere 12.5 meters long and weighs 10 tons (metric). Fusial thrust engines generate a maximum speed of 1,050 kph and the smooth manoeuvring with the signature double wings gives pilots a clear advantage when dodging fire from enemy starships. The combination of a deflector shield projector and generator provides significant protection in battle, while torpedo launchers and laser cannons allow for precision attacks on fast-moving targets.

In case of crashes on swampy planets, or similar emergencies, the starfighter comes with a fully equipped survival kit including field rations to last the pilot a week. Letting an astromech droid serve as a combined navigation system and built-in mechanic is a stroke of genius by the Incom Corporation, as the droid may be used for multiple purposes on missions and on the ground – like transporting Death Star blueprints or disabling trash compactors.

MEET THE MODEL DESIGNER

Designer Henrik Andersen and
Creative Director Jens Kronvold Frederiksen
with the T-65 X-wing starfighter

'Every time we release a new LEGO® X-wing starfighter, we hear from *Star Wars*™ fans who want to share their excitement after they have built their first one. It's a familiar feeling. I have worked as a LEGO Model Designer for over 25 years now, and the first model I ever worked on was the first Ultimate Collector Series X-wing starfighter (set 7191 released in 2000). There are always new details or techniques to explore and, like their movie model counterparts, each version we have released has its own unique characteristics.'

'It was a high priority to decorate the cockpit. This is the first time we have done that. We developed new wing plates to get the correct angle on the rear edge of the wings. To increase the size of the engines, we created a new wall element, too. In the films, we see Luke in a few different variations of the cockpit of the legendary Red Five and we wanted to incorporate the best of these versions.'

Henrik Andersen
LEGO® *Star Wars*™ Designer

Designer Henrik Andersen with
the new T-65 X-wing starfighter
(left) and 7191 X-wing starfighter
from 2000 (right)

RECREATING AN ICONIC INCOM CORPORATION DESIGN

This set is a detailed display model of the X-wing starfighter Luke Skywalker pilots in the Original Trilogy and later in *The Mandalorian* series, incorporating key elements of each version:

- Opening canopy reveals the decorated cockpit
- Retractable targeting sight
- Folding wings function
- For the first time, the information plaque is decorated, replacing stickers previously used in Ultimate Collector Series
- New Luke Skywalker Rebel pilot uniform with new arm printing and new leg elements
- New engine construction
- Space for the R2-D2 minifigure in the socket behind the cockpit
