YAMAHA MT-10 SP

Since 1955 when Yamaha introduced its first motorcycle model and immediately began winning races with it, the brand has built its reputation on cutting-edge innovation and unmatched performance in the realm of motorcycle competition. Once again, their radical Hyper Naked models break new ground. None more so than the ultra-high-performance Yamaha MT-10 SP, which stands at the pinnacle of the Hyper Naked model range. A vibrant design shaped to break the boundaries of convention the MT-10 SP takes you on a ride that's out of this world.

FROM THE DESIGN TEAM

LEGO® Technic Model Designer Lars Thygesen, a lifelong motorcycle enthusiast himself, developed the design in collaboration with Yamaha.

'It's always a thrill when we can create a model that pushes the limits – just like the real-life version. Thanks to the amazing Yamaha design team, we had access to all the materials and expertise we could ask for to ensure a smooth design process. It's an incredibly advanced vehicle, and we adapted a few of the features and functions to fit the scale, including the gearbox with new shifter drums and forks, which is the most intricate and realistic we've ever released.'

LARS THYGESEN

YAMAHA MT-10 SP

The MT-10 SP reflects a thrill-seeking and creative spirit inspired by Japan's provocative underground motorcycle subculture. The bold design elements and Liquid Metal/Raven styling details perfectly frame the muscular, superbike-derived 998cc CP4 crossplane engine. Advanced features like an innovative Öhlins® Semi-Active Suspension System, full electronic suite and Quick Shift System result in a modern street bike that delivers huge torque, superior agility and sportbike-inspired performance.

THE FLAGSHIP YAMAHA MT-10 SP

The LEGO® Technic Yamaha MT-10 SP closely captures the real-life model's striking colours, features and functions. Now with the LEGO Technic AR app, you can watch your model come to life. From the inline 4-cylinder engine to the aluminium frame and cutting-edge suspension, the model mimics the original. The authentic shifting drum and fork elements were developed to replicate the technologically advanced gearbox that is unique for this model to deliver an exceptional building experience.
