**A STRONG PELVIC FLOOR CAN MAKE
A WORLD OF DIFFERENCE.
TRAIN OFTEN, WISELY & WITH CARE.**

Congratulations on acquiring LELO Beads™. Before getting more closely acquainted with it, please take a moment to look through this user manual.

GETTING STARTED

Every woman is different. That's why LELO Beads™ are available in different size variations: mini, classic & plus. LELO Beads™ Mini have been specially designed to offer a perfect fit for women under 30 who have never experienced childbirth, LELO Beads™ Classic are recommended for over-30's and those who have experienced childbirth, and LELO Beads™, are perfect for women that want to elevate their pelvic floor routine with heavier weights.

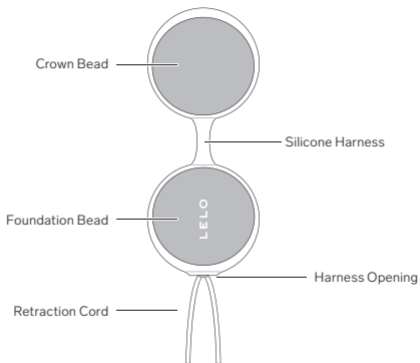

Each set of LELO Beads™ consists of a silicone harness and four or six weighted beads. When worn individually or combined using the silicone harness, LELO Beads™ offer an easy, effective and effortless way to optimize your pelvic floor workout.

LELO Beads™ Noir are our sensual take on this bestselling product, designed to be used during foreplay or as your own little secret on a night out with your partner. They consist of 2 weighted beads (37 grams) in the mini size that can be combined with a black silicone harness.

Please note these are guidelines only. For example, LELO Beads™ Mini are often the preferred choice of many women who are starting to go through menopause, while the original LELO Beads™ are sometimes preferred by younger women who have just started practicing Kegel exercises.

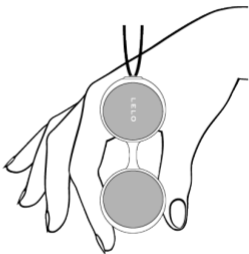

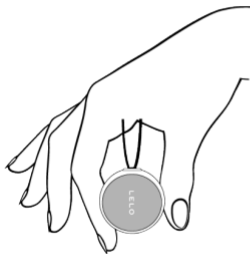

Consult your doctor before using LELO Beads™ during pregnancy.

GETTING TO KNOW YOUR LELO Beads™

USING LELO Beads™

- How to hold

• How to insert

Inserting LELO Beads™ is not dissimilar to inserting a tampon. However, as LELO Beads™ have a wider girth, some additional insertion techniques must be used.

1. To facilitate easy insertion, apply LELO Personal Moisturizer on the leading edge of the bead(s) you intend to use. Avoid using too much lubricant, as this will make the bead(s) slippery and difficult to hold in place.
2. Lie on your back and introduce the leading end of the bead(s) into your vagina with a firm but gentle push. If you experience difficulties, raise your pelvis so that gravity can assist you. Some women find that a standing position, with one leg raised, works better for them.
3. If you are using two beads and the silicone harness, insert the crown bead first. Due to the gap between the two beads, once the crown bead is inserted, the vaginal muscles may try to push it out before you can insert the foundation bead. Take a deep breath and relax to help ease both beads in.

CLEANING, STORAGE, AND SAFETY

- Using LELO Beads™ with hand creams or silicone-based lubricants may make the silicone permanently tacky.
- LELO Beads™ are fully waterproof, making cleaning simple. Rinse and spray with LELO Toy Cleaner, then rinse again and allow them to dry.
- Always disassemble and clean each part of your LELO Beads™ thoroughly before and after each use. You can wash the silicone with warm water and antibacterial soap, rinse with clean warm water and pat dry with a lint-free cloth or towel. Never use cleansers containing alcohol, petrol or acetone.
- Avoid leaving your LELO Beads™ in direct sunlight and NEVER expose it to extreme heat. Store your LELO Beads™ in a dust-free place and keep it away from products of other materials.
