Thank you for purchasing this Samsung product.

To receive more complete service, please register your product at www.samsung.com

Model _____ Serial No. _____

Before Reading This Install Guide

This TV B2B (Business to Business) model is designed for hotels or the other hospitality businesses, supports a variety of special functions, and lets you limit some user (guest) controls.

Figures and illustrations in this Install Guide are provided for reference only and may differ from the actual product appearance. Product design and specifications may change without notice.

Operational Modes

This TV has two modes: **Interactive** and **Standalone** mode.

- **Interactive** mode: In this mode, the TV communicates with and is fully or partially controlled by a connected Set Back Box (SBB) or Set Top Box (STB) provided by a hospitality System Integration (SI) vendor. When the TV is initially plugged in, it sends a command that attempts to identify the SBB or STB connected to it. If the TV identifies the SBB or STB and the SBB or STB identifies the TV, the TV gives full control to the SBB or STB.
- **Standalone** mode: In this mode, the TV works alone without an external SBB or the STB.

The TV has a **Hotel Option** menu that lets you easily set its various hospitality functions. Please see page 29.

The menu also lets you activate or de-activate some TV and hospitality functions so you can create your optimal hospitality configuration.

Still image warning

Avoid displaying still images (such as jpeg picture files) or still image elements (such as TV channel logos, panorama or 4:3 format images, stock or news bars or crawls) on the screen. Displaying still pictures continually can cause uneven screen wear, which will affect image quality. To reduce the chance that this effect will occur, please follow the recommendations below:

- Avoid displaying the same TV channel for long periods.
- Always try to display a full screen image.
- Reduce brightness and contrast to help prevent the occurrence of after-images.
- Use all TV features designed to reduce image retention and screen burn-in.

Warning! Important Safety Instructions

Please read the Safety Instructions before using your TV.

Refer to the table below for an explanation of symbols which may be on your Samsung product.

CAUTION			Class II product: This symbol indicates that a safety connection to electrical earth (ground) is not required. If this symbol is not present on a product with a main lead, the product MUST have a reliable connection to protective earth (ground).
RISK OF ELECTRIC SHOCK. DO NOT OPEN.			
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER ALL SERVICING TO QUALIFIED PERSONNEL.			AC voltage: Rated voltage marked with this symbol is AC voltage.
	This symbol indicates that high voltage is present inside. It is dangerous to make any kind of contact with any internal part of this product.		DC voltage: Rated voltage marked with this symbol is DC voltage.
	This symbol indicates that this product has included important literature concerning operation and maintenance.		Caution. Consult instructions for use: This symbol instructs the user to consult the install guide for further safety related information.

- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus and to protect it from overheating, these slots and openings must never be blocked or covered.
 - Do not place this apparatus in a confined space, such as a bookcase or built-in cabinet, unless proper ventilation is provided.
 - Do not place this apparatus near or over a radiator or heat register, or where it is exposed to direct sunlight.
 - Do not place vessels (vases etc.) containing water on this apparatus, as this can result in a fire or electric shock.
- Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.). If this apparatus accidentally gets wet, unplug it and contact an authorised dealer immediately.
- This apparatus uses batteries. In your community, there might be environmental regulations that require you to dispose of these batteries properly. Please contact your local authorities for disposal or recycling information.
- Do not overload wall outlets, extension cords, or adaptors beyond their capacity, since this can result in fire or electric shock.
- Power-supply cords should be placed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at the plug end, at wall outlets, and at the point where they exit from the appliance.
- To protect this apparatus from a lightning storm, or when left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges.

- Never insert anything metallic into the open parts of this apparatus. This may cause a danger of electric shock.
- To avoid electric shock, never touch the inside of this apparatus. Only a qualified technician should open this apparatus.
- Be sure to plug in the power cord until it is firmly seated. When unplugging the power cord from a wall outlet, always pull on the power cord's plug. Never unplug it by pulling on the power cord. Do not touch the power cord with wet hands.
- If this apparatus does not operate normally - in particular, if there are any unusual sounds or smells coming from it - unplug it immediately and contact an authorised dealer or Samsung service centre.
- Be sure to pull the power plug out of the outlet if the TV is to remain unused or if you are to leave the house for an extended period of time (especially when children, elderly, or disabled people will be left alone in the house).
 - Accumulated dust can cause an electric shock, an electric leakage, or a fire by causing the power cord to generate sparks and heat or by causing the insulation to deteriorate.
- Be sure to contact an authorised Samsung service centre for information if you intend to install your TV in a location with heavy dust, high or low temperatures, high humidity, chemical substances, or where it will operate 24 hours a day such as in an airport, a train station, etc. Failure to do so may lead to serious damage to your TV.
- Use only a properly grounded plug and wall outlet.
 - An improper ground may cause electric shock or equipment damage. (Class I Equipment only.)
- To turn off this apparatus completely, disconnect it from the wall outlet. To ensure you can unplug this apparatus quickly if necessary, make sure that the wall outlet and power plug are readily accessible.
- Store the accessories (batteries, etc.) in a location safely out of the reach of children.
- Do not drop or strike the product. If the product is damaged, disconnect the power cord and contact a Samsung service centre.
- To clean this apparatus, unplug the power cord from the wall outlet and wipe the product with a soft, dry cloth. Do not use any chemicals such as wax, benzene, alcohol, thinners, insecticide, aerial fresheners, lubricants, or detergents. These chemicals can damage the appearance of the TV or erase the printing on the product.
- Do not expose this apparatus to dripping or splashing.
- Do not dispose of batteries in a fire.
- Do not short-circuit, disassemble, or overheat the batteries.
- **CAUTION:** There is danger of an explosion if you replace the batteries used in the remote with the wrong type of battery. Replace only with the same or equivalent type.
- **WARNING - TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES AND OTHER ITEMS WITH OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES.**
- Use care when touching the TV after it has been on for some time. Some parts can be warm to the touch.

01 What's in the Box?

Make sure the following items are included with your TV. If any items are missing, contact your dealer.

Samsung Smart Remote

Power Cable

Quick Setup Guide / Regulatory Guide
(Not available in some locations)

Data Cable

- The items' colours and shapes may vary depending on the models.
- Cables not included can be purchased separately.
- Check for any accessories hidden behind or in the packing materials when opening the box.

The screen can be damaged from direct pressure when handled incorrectly. As shown in the figure, make sure to grip the edges of the screen when you lift the TV.

For India only

This product is RoHS compliant.

This marking on the product, accessories or literature indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

For more information on safe disposal and recycling visit our website www.samsung.com/in or contact our Helpline numbers-1800 40 SAMSUNG(1800 40 7267864) (Toll-Free)

Installing the LED TV Stand

Assembling the Stand and Components (HG**Q60A*)

- For HG**Q60AAAW / HG**Q60AAAG model, refer to the next section.

When installing the stand, use the provided components and parts.

- Place a soft cloth over the table to protect the TV, and then place the TV so that its screen faces down toward the table surface.

1 43-65"

- Insert the Stands into the slot on the bottom of the TV.
- Slide and assemble it to the end line in the direction of arrow.

NOTE

- Make sure to distinguish between the front and back of each component when assembling them.
- Make sure that at least two persons lift and move the TV.

Installing the wall mount kit

You can mount the TV on the wall using a wall mount kit (sold separately).

The wall mount kit (sold separately) allows you to mount the TV on a wall.

For detailed information on installing the wall mount, see the instructions provided with the wall mount. Contact a technician for assistance when installing the wall mount bracket. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you select to install the TV on your own.

Securing the TV to the Wall

Caution: Pulling, pushing, or climbing on the TV may cause the TV to fall. In particular, ensure your children do not hang on or destabilise the TV. This action may cause the TV to tip over, causing serious injuries or death. Follow all safety precautions provided in the Safety Flyer included with your TV. For added stability and safety, you can purchase and install the anti-fall device.

Preventing the TV from falling

1. Using the appropriate screws, firmly fasten a set of brackets to the wall. Confirm that the screws are firmly attached to the wall.
 - You may need additional material such as wall anchors depending on the type of wall.
2. Using the appropriately sized screws, firmly fasten a set of brackets to the TV.
 - For the screw specifications, refer to the standard screw part in the table under "Wall Mount Kit Specifications (VESA)".
3. Connect the brackets fixed to the TV and the brackets fixed to the wall with a durable, heavy-duty string, and then tie the string tightly.
 - Install the TV near the wall so that it does not fall backwards.
 - Connect the string so that the brackets fixed to the wall are at the same height as or lower than the brackets fixed to the TV.

- The product colour and shape may vary depending on the model.

Wall Mount Kit Specifications (VESA)

Install your wall mount on a solid wall perpendicular to the floor. If you are attaching the wall mount to building materials other than plaster board, contact your nearest dealer. If installed on a ceiling or slanted wall, the TV may fall and cause severe personal injury.

- The wall mount kit is not supplied, but sold separately.
- NOTE
 - Standard dimensions for wall mount kits are shown in the table below.
 - Samsung wall mount kits contain a detailed installation manual. All parts necessary for assembly are provided.
 - Do not use screws that do not comply with the VESA standard screw specifications.
 - Do not use screws that are longer than the standard dimension or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
 - For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
 - Do not fasten the screws too firmly. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
 - Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
 - Do not mount the TV at more than a 15 degree tilt.
 - Always have two people mount the TV onto a wall.

TV size in inches	VESA screw hole specs (A * B) in millimetres	C (mm)	D (mm)	E (mm)	C (mm)	Standard Screw	Quantity
43	200 x 200	380.6	189.1	168.6	11-13	M8	4
50		457.0	205.3	237.1			
55		513.9	237.2	269.4			
65		523.3	261.9	267.8			
75		636.2	257.4	300.7			

Do not install your wall mount kit while your TV is turned on. This may result in personal injury from electric shock.

Providing proper ventilation for your TV

When you install your TV, maintain a distance of at least 10 cm between the TV and other objects (walls, cabinet sides, etc.) to ensure proper ventilation. Failing to maintain proper ventilation may result in a fire or a problem with the product caused by an increase in its internal temperature.

- When you install your TV with a stand or a wall mount, we strongly recommend you use parts provided by Samsung Electronics only. Using parts provided by another manufacturer may cause difficulties with the product or result in injury caused by the product falling.

02 The Samsung Smart Remote

About the Buttons on the Samsung SolarCell Remote (Samsung Smart Remote)

- The images, buttons, and functions of the Samsung Smart Remote may differ depending on the model.
- The Universal Remote function operates normally only when you use the Samsung Smart Remote that comes with the TV.
- A button without a description in the image below is not supported on the product.

Pairing the TV to the Samsung Smart Remote

When you turn on the TV for the first time, the Samsung Smart Remote pairs to the TV automatically. If the Samsung Smart Remote does not pair to the TV automatically, point it at the remote control sensor of the TV, and then press and hold the buttons labelled  and  as shown in the figure on the left simultaneously for 3 seconds or more.

Charging the battery

A Solar Cell

Expose to light when the remote is not in use. This will extend the remote's operating time.

B USB port (C-type) for charging

Used for quick charging. The LED on the front will light when charging. When the battery is fully charged, the LED will turn off.

- The USB Cable is not provided.

- It is recommended to use an original Samsung charger. Otherwise, it may cause performance degradation or failure of the product. In this case, the warranty service is not applicable.
- When the remote control does not work due to low battery, charge it by using the USB-C type port.

Fire or explosion may occur, resulting in damage to the remote control or personal injury.

- Do not apply shock to the remote control.
- Be careful not to let foreign substances such as metal, liquid, or dust come in contact with the charging terminal of the remote control.
- When the remote control is damaged or you smell smoke or burning fumes, immediately stop operation and then repair it at the Samsung service centre.
- Do not arbitrarily disassemble the remote control.
- Be careful not to let infants or pets suck or bite the remote control. Fire or explosion may occur, resulting in damage to the remote control or personal injury.

03 Controlling external devices with a Samsung Smart Remote - Using the Universal Remote

You can control external devices connected to the TV using a Samsung Smart Remote. To control external devices, register them by following instructions.

- The images on your TV may differ from the images accompanying the instructions depending on the model and geographical area.

1. Go to the **Hotel Option** menu, and then select **Universal Remote Setting**. The **Universal Remote Setup** screen appears.
 - **Hotel Option** menu > **Universal Remote** > **Universal Remote Setting**

2. If the TV is connected to a set-top box, select **Cable/Satellite Box**.

3. Select your service provider from the list in the screen. If your service provider is not listed, search manually.

4. Select the HDMI port on the TV to which the set-top box is connected.

5. Press the CH button on the remote control according to the instructions on the screen in order to test whether the TV and the set-box operate correctly when you press the remote control buttons.
 - If the TV and the set-box operate correctly, select **Yes**. The setup is completed. Go to step 7.
 - If the TV and the set-box do not operate correctly, select **No**. Go to step 6.

6. Follow the instructions on the screen to search for the model number of the set-top box connected to the TV. When the model number is found, repeat step 5 for the operation test.

7. When you have completed all the settings, select **Done** in the following screen:

- This function may not be supported depending on the model or geographical area.
- You can also use the **Anynet+ (HDMI-CEC)** function to operate external Samsung devices with your TV's remote control without any additional setup.
- Specific external devices connected to the TV may not support the universal remote feature.
- Do not place any obstacles in front of an external device and TV's logo. It may cause signals from the remote control to be transmitted improperly.
- The TV memorises both the external device and its connection port (HDMI 1, HDMI 2, etc.).

Downloading the Universal Remote icon

1. Store the following files in the root directory of your USB device:

	File name	File type	File Size
App tile	stb_app_icon	jpg, png	245 x 138, 2MB
Source icon	stb_source_icon	jpg, png	66 x 66 to 135 x 135, 2MB

- The image on your TV may differ from the image above depending on the model and geographical area.
2. Go to the **Hotel Option** menu, and then select **Universal Remote Icon DL**.
- **Hotel Option** menu > **Universal Remote** > **Universal Remote Icon DL**
 - The **Universal Remote Icon DL** is only available after you have completely set up the Universal Remote.

04 Initial Setup

When you turn on your TV for the first time, it immediately starts the Initial Setup. Follow the instructions displayed on the screen and configure the TV's basic settings to suit your viewing environment.

If you already completed the Initial Setup, run the Initial Setup again using the following menu.

- **Hotel Option** menu > **System** > **TV Reset**

If you select **TV Reset**, the TV resets all values to their factory defaults. When the TV turns off, press the **Power** button on the remote control to turn on the TV. The TV starts the Initial Setup.

- The Initial Setup steps may differ with the model or geographical area.

Select the region settings

- 1
 - Before select region, refer to the country list information on the right.
 - If you select the incorrect region, execute **TV Reset** again after the Initial Setup is completed.
 - If the region is changed, the TV automatically turns off and on.

Selecting your TV installation type

- 2
 - **Basic TV Setup:** Select to proceed to the next step to set the basic options for using your TV.
 - **Cloning Mode:** Copy the system settings from the USB or server to the TV.
 - **Factory Menu:** End Initial Setup and go to **Hotel Option** menu directly.

-
- Follow the instructions on the screen to configure the settings for your own viewing environment.

Using the TV Controller

You can turn on the TV with the **TV Controller** button at the bottom of the TV, and then use the **Control menu**. The **Control menu** appears when the **TV Controller** button is pressed while the TV is On. For more information about its usage, refer to the figure below.

- The screen may dim if the protective film on the SAMSUNG logo or the bottom of the TV is not detached. Please remove the protective film.

05 The Connection Panel

- The colour and shape of the product may differ depending on the model or geographical area.
- When connecting an external device, match the colour of the connection port to the cable.
- Whenever you connect an external device to your TV, make sure that power on the TV and the device is turned off.

① VARIABLE AUDIO OUT

Used for the audio output to the Bathroom speaker. Connect the Volume Control Box on the Bathroom Wall and the VARIABLE AUDIO OUT port.

② VOL-CTRL

Used to control the volume of the Bathroom speaker. Connect the Volume Control Box on the Bathroom Wall and the VOL-CTRL port.

③ USB (5V 0.5A), USB (HDD 5V1A)

- Connector for software upgrades and Media Play, etc.
- Service connection.

④ **LAN IN / LAN OUT**

To connect a LAN cable, use a CAT 7 (*STP type) cable for the connection. (100/10 Mbps)

* Shielded Twisted Pair

⑤ **HDMI IN 1, 2 (eARC), 3**

Connects to the HDMI jack of a device with an HDMI output.

- No separate sound connection is needed for an HDMI to HDMI connection. HDMI connections carry both audio and video.
- It is recommended that the external device of the HDMI 1.3 or 1.4 version will be used with this TV. If you meet the compatible problem like no sound or the abnormal screen or etc with the device of the HDMI 1.2 version, contact to the Samsung customer care centre.

⑥ **SERVICE**

Connect this port to the port on the optional RJP (Remote Jack Pack). This will allow you to connect external devices (Camcorder, PC, DVD players etc.) easily.

⑦ **DATA**

- Used to support data communication between the TV and the SBB or STB.
- Connects using RJ-12 TV type plugs.

⑧ **ANT IN (SATELLITE), (Aerial/CABLE) / ANT IN**

To view television channels correctly, the TV must receive a signal from one of the following sources:

- An outdoor antenna / A cable television system / A satellite receiver

⑨ **DIGITAL AUDIO OUT (OPTICAL)**

Connects to a Digital Audio component.

06 Connections

Connecting to your Internet network

You can set up your TV so that it can access the SMART TV applications through your local area network (LAN) using a wired or wireless connection.

- After you have physically connected the TV to your network, you must configure the network connection to complete the process. You can configure the connection after the Initial Setup process, through the TV's menu (Hotel Option menu > Network > Network Setup).

Establishing a wireless Internet connection

Connect the TV to the Internet using a wireless access point or modem.

- This TV supports the IEEE 802.11 a /b /g /n /ac communication protocols. Samsung recommends using IEEE 802.11n. Otherwise, when you play video over a network connection, the video may not play smoothly.
 - Some of the IEEE 802.11 communication protocols may not be supported depending on the model or geographical area.
- To use a wireless network, the TV must be connected to a wireless access point or modem. If the wireless access point supports DHCP, the TV can use a DHCP or static IP address to connect to the wireless network.
- Select a channel that is not currently in use for the wireless access point. If the channel set for the wireless access point is currently being used by another device, the result is usually interference and/or a communications failure.
- Most wireless networks have an optional security system. To enable a wireless network's security system, you need to create a security key using characters and numbers, and then enter that key into the access point through its menu. You then must enter this security key into any other devices you want to connect to the wireless network.

Network Security Protocols

The TV only supports the following wireless network security protocols:

- Authentication Modes: WEP, WPAPSK, WPA2PSK
- Encryption Types: WEP, TKIP, AES

In compliance with the Wi-Fi certification specifications, Samsung TVs do not support WEP or TKIP security encryption in networks running in the 802.11n mode.

If the wireless access point supports WPS (Wi-Fi Protected Setup), you can connect the TV to your network using PBC (Push Button Configuration) or a PIN (Personal Identification Number). WPS automatically configures the SSID and WPA key settings.

Your Smart TV cannot connect to uncertified wireless access point.

Establishing a wired Internet connection

There are three main ways to connect the TV to your network using cable, depending on your network setup. They are illustrated below:

- The TV will not be able to connect to the Internet if your network speed is below 10 Mbps.
- To connect a LAN cable, use a CAT 7 (*STP type) cable for the connection. (100/10 Mbps)
 - * Shielded Twisted Pair

Mobile Network

Depending on the model or geographical area.

While connecting to the mobile network, some functions might be unavailable.

Refer to the following diagram and insert the Mobile Dongle into the USB port. The Mobile Dongle must be connected to the TV in order to connect to the mobile network. However, the Mobile Dongle is sold separately and is not available from Samsung.

If you have any problems using online services, please contact your Internet service provider.

- When you use a large mobile dongle(Data Card), USB devices may not work properly due to interferences among the USB ports, or the wireless network may not work properly due to interferences from the peripherals and surroundings. In this case, use a USB extension cable to connect a large mobile dongle to a USB port.

Supported mobile service providers and Model No

For more information, refer to the e-Manual.

Connecting the TV to a SBB or STB

Connect the **DATA** port of the TV to the **ETH MODEM** port of the STB (SBB) with the Data cable.

- The **ETH MODEM** port name that you connect the Data Cable to may differ depending on the SBB or STB type.
- IR signals sent by the remote control to the TV or SBB / STB must meet the following specification to use IR pass through function.

IR signal receiver specification

- Band pass filter centre frequency: 37.9 kHz
- Carrier Frequency, Duty 50%
- Minimum Burst Length (tburst): 12 pulses (316 us)
- Minimum Gap Time Between the burst (tburst gap): 16 pulses (422 us)
- Minimum Gap Time between the data commands (tpause): 25 ms

List of Hospitality SI Vendors and compatible data cables supplied with the TV

- Confirm you are using the correct data cable for your SI vendor. Refer to the code label on the data cables.
- Contact your nearest dealer or your SI Vendor to buy the data cable not included in the TV.

Cable code	Pin assign	REMARK
BN39-02462A (Colour: BLACK)	<div style="display: flex; justify-content: space-around;"> <div style="border: 1px solid black; padding: 5px;"> <p>TV SIDE</p> <p>1: TX 2: RX 3: IR 4: NC 5: GND</p> </div> <div style="border: 1px solid black; padding: 5px;"> <p>P1 P2</p> <p>1 RED 3 2 GREEN 5 3 WHITE 6 4 BLACK 1 5 YELLOW 2</p> </div> <div style="border: 1px solid black; padding: 5px;"> <p>STB (SBB) SIDE</p> <p>1: NC 2: GND 3: TX 4: NC 5: RX 6: IR</p> </div> </div>	SAMSUNG and others

- RX and TX notation is based on TV.
- Operation Specification of Data Cable(RJ12): RS232

Connecting the Bathroom Speakers

You can connect the Bathroom Speakers using the following method.

Connecting through the Variable Output (available without an external amplifier)

- The rear panel may differ depending on the model.

① Connect the **VARIABLE AUDIO OUT** port of the TV to the Bathroom Wall Speakers of the hotel.

② Connect the **VOL-CTRL** port of the TV to the Volume Control Box Switch port on the Bathroom Wall of the hotel.

- The maximum speaker output is 4W, 8Ω.
- The **VARIABLE AUDIO OUT** port supports **MONO** sound out only.

- Installing the Volume Control Box

- If you configure the Volume Control Box as shown in the figure, you can control the volume of the bathroom speakers.
- The port that connects the Volume Control Box to the TV is a 3.5 mm normal Phone jack.
- Volume Control Box switch is a Tact switch.

- Setting the Sub AMP Mode

- 0: Turns the Sub AMP function off (PWM off).
- 1: Determines the Sub volume according to the TV speaker sound volume. The TV speaker sound and **VARIABLE AUDIO OUT** volume are determined according to the **Power On Volume Num**, the **Min Volume**, and the **Max Volume** values in the **Hotel Option** menu.
- 2: Determines the volume according to the Volume Control Box setting.

- **VOL-CTRL** Port Specifications

- **Speaker Wire:** Use speaker cable no more than 25 m in length.

07 Setting the Hotel Option menu

To access the **Hotel Option** menu, press the following buttons on the Samsung Smart Remote:

1. Press the **+/-** button.
2. Press the up directional button.
3. Press the down directional button.
4. Press the **Select** button.

To control the TV functions in the **Hotel Option** menu, the TV has the **Standalone** mode.

- **SI Vendor:** OFF / Movielink / Swisscom / SSCP

After a menu appears, follow these general directions to navigate and change values:

- Use the directional buttons on the remote control to move from menu item to menu item.
- Press the **Select** button on the remote control to select a menu item. The screen displays that menu item only.
- Press the left or right directional button to change a value. The right directional button increases numerical values. The left arrow button decreases numerical values.
- When the screen is displaying one menu item, you can press the up or down directional button to display the next or previous menu item.
- Press the  button to exit the current menu item and go to a higher menu level.
- To exit a **Hotel Option** menu, turn off the TV, and then turn it on again. Any changes you made are saved except changes to SI (System Integration) vendor. For changes to SI vendor, you must turn the TV off, wait until the power indicator at the bottom of the TV glows steadily. And then unplug the TV's power cord, wait for the power indicator to go off, and then plug the TV's power cord in again.

Hotel Option menu items

To exit from this menu, turn off (or turn off and unplug the power cable if you have changed SI vendor) the TV, and then turn on again. Any changes you made are saved.

- The menu items may not be supported depending on the model or geographical area.

Hotel Option menu Item		Description
Hospitality Mode		Select Hospitality Mode . <ul style="list-style-type: none"> • Interactive: TV works with an SI STB or SBB. • Standalone: TV works alone, without an SI STB or SBB.
SI Vendor		<ul style="list-style-type: none"> • Interactive: Samsung / 2M / Locatel / VDA / VDA-S / Acentic / Sustinere / Quadriga / ETV / IBahn / Magilink / Otrum / Siemens / Amino / MDC / Enseo • Standalone: OFF / Movielink / Swisscom / SSCP
SI Config	MDC ID Settings	This function is only available when set to Hospitality Mode: Interactive , SI Vender: MDC .
	TV Version	This function is only available when set to Hospitality Mode: Interactive , SI Vender: Magilink .
Power On	Power On Channel	Set the channel to display when the TV is turned on. <ul style="list-style-type: none"> • User Defined: Lets you set the channel number manually on Power On Channel Num. See Power On Channel Num below. • Last Saved: If you select this item, when the TV is turned on, it displays the channel it was displaying when it was turned off.
	Power On Channel Num	When the TV is turned on, it switches automatically to this channel.
	Power On Channel Type	Select the type of the channel will be displayed when the TV is turned on. ATV (analog air band), DTV (digital air band)

Hotel Option menu Item		Description
LYNK Cloud	Enrollment	Lets you enroll the TV with LYNK Cloud solution.
	Enrollment Status	Check the status of the TV enrollment in the LYNK Cloud service.
*Virtual Standby	Virtual Standby Mode	When the AC power cord is plugged in and the power is off, this option maintains the TV's important features even after the screen is off. <ul style="list-style-type: none"> Electricity consumption may vary depending on the environment.
	Reboot Time	After the TV power is off (in Virtual Standby Mode) if there is no input from the user within the set Reboot Time , the TV will reboot and enter Virtual Standby Mode again.
Room Number		You can set the room number of the TV's location.
H.Browser Solution	H.Browser Mode	You can turn on or off the H.Browser Mode and run the H.Browser Web App.
	H.Browser Vendor	You can select the H.Browser Vendor.
	URL Launcher Setting	H.Browser Solution settings menu <ul style="list-style-type: none"> Install Web App: Enter the H.Browser server URL where Web App and sssp_config.xml files are located. Uninstall: You can delete the installed Web App. Timeout setting: Set the timeout period for connecting to the URL. Developer Mode: If you used Tizen Studio (SDK) for development, you can connect to the Host PC (which SDK is installed) to use the development tool.

- *: This function is available when **Enrollment Status** in LYNK Cloud is set to ON.
- Refer to the manual of each solution for details about functions and settings of the solutions such as LYNK Cloud.

USB Cloning

Hotel Option menu > Cloning

The USB cloning function lets you download user-configured settings (Picture, Sound, Broadcasting, and Hotel Option menu) from one TV to a USB device, and then upload these settings from the USB device to other TV sets. This lets you create a standard file of settings and distribute that standard file to all the TVs in your facility.

- After cloning, certain features are applied when the TV is turned on again.

Cloning TV to USB: Copies stored menu settings from a TV to a USB device

Hotel Option menu > Cloning > Clone TV to USB

1. Insert a USB device into the USB port on the rear of the TV.
2. Go to the **Hotel Option** menu.
3. Press the up or down directional button to select **Clone TV to USB**, and press the **Select** button on the remote control.
4. The cloning message is displayed.
 - The clone folder will be labelled T-NKMUABC.
 - The cloned values include the values on the guest side menu (Picture, Sound, Broadcasting and so on) and the **Hotel Option** menu.

Cloning USB to TV: Copies menu settings and channel data in a USB device to a TV

Shortcut: Turn the TV off, insert the USB device, turn the TV on, and then press the **Select** button on the remote control for 5 seconds.

To clone data to the TV using the **Hotel Option** menu, follow these steps:

1. Turn the TV off.
 2. Insert the USB device into the USB port on the rear of the TV.
 3. Turn the TV on.
 4. Go to the **Hotel Option** menu.
 5. Press the up or down directional button to select **Clone USB to TV**, and press the **Select** button on the remote control.
 6. The message **Clone settings from USB to TV** is displayed. Press the **Select** button on the remote control.
 - If there is no file to copy on the USB device or the message that there is no file appears, check the folder on your USB device.
 - The folder name should be T-NKMUABC.
 - Tables that list the settings that are cloned in the **Hotel Option** menu begin on the next page.
-  Turn the TV off, insert the USB device, turn the TV on, and press the **Select** button on the remote control for 5 seconds, then this menu is displayed.

Pre-condition for cloning (check point)

- Cloning should be done between same model (same SW version).
- Before cloning, all displays should be updated at the latest version (same SW version).

Settings Cloned in the Hotel Option menu

- The menu items may not be supported depending on the models.

Setting Auto Initialize

Hotel Option menu > Cloning > Setting Auto Initialize

When you clone settings from one TV to another, you clone both the guest side menu and hotel side menu settings: **Picture, Sound, Broadcasting, and Hotel Option** menu. This lets you set nearly all of the menu values on your hospitality TVs to the same, standard settings. If you allow guests access to the guest side menus, for example the **Picture** menu, they can change the settings in those menus so they are no longer standard. If you set the **Setting Auto Initialize** function to on, the TV automatically restores (Initializes) any guest side menu values to the cloned, standard values when the TV is turned off and then turned on again. Note that **Setting Auto Initialize** works on cloned guest side menu values only. Settings which have not been cloned are ignored.

The table below lists the settings that are restored to their cloned values when you set the **Setting Auto Initialize** function to on.

- The menu items may not be supported depending on the models.

Updating the TV's Software

DO NOT turn off the TV's power until the update is complete. The TV will turn off and on automatically after completing the software update. Video and audio settings will be reset to their defaults after a software update. To easily reset the settings after software update, we recommend you to copy the TV's settings.

- For more information about the USB cloning function, refer to page 37.

Updating through a USB device

To update the TV's software, follow these steps:

1. Insert a USB device containing the software update file into the USB port of the TV.
 2. Run **SW Update**.
 - **Hotel Option** menu > **System** > **SW Update**
 3. The TV displays a pop-up message that checks for the updated version.
 4. Move the focus to **OK**, and then press the **Select** button on the remote control.
- Please be careful to not disconnect the power or remove the USB device while upgrades are being applied. The TV will turn off and turn on automatically after completing the SW upgrade. Please check the SW version after the upgrades are complete.

08 Editing Channels

Using Channel Editor

 **Hotel Option menu > Channel > Channel Editor**

Using **Channel Editor** you can edit the channels stored in the TV's memory.

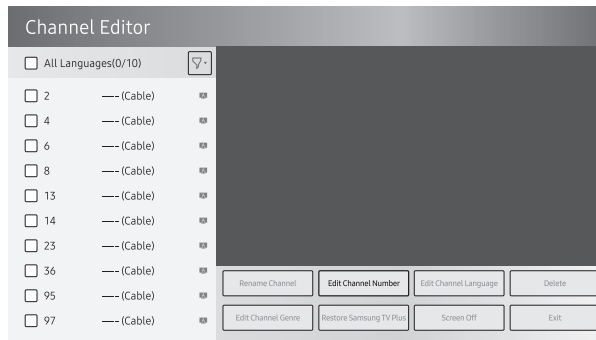

- Change the channel numbers and names, edit the channel language and channel genre and delete channels.
- If you set the **Screen Off** function to **On** for the selected channels, a screen off message is displayed, and pictures are turned off by the **Screen Off** function and only audio is output from those channels.
- **Channel Editor** also lets you view information about each channel easily, without your having to display each channel directly.

General Steps for Using the Channel Editor in Standalone Mode

- The image on your TV may differ from the image above depending on the model and geographical area.
1. Run **Channel Setup (Channel > Channel Setup)** in the **Hotel Option** menu.
 2. Enter **Channel Editor (Channel > Channel Editor)** in the **Hotel Option** menu.
 3. On a piece of paper, compile a list of channels you want to have, arranged in the order you want.
 4. Based on the list created in Step 3, rearrange the channels and edit the channel names.
 5. Press the  button to exit.

Editing the Channel Number

Change the channel number of a channel you select. To change a channel number, follow these steps:

1. Select a channel on the **Channel Edit** screen.
2. Use the directional buttons on the remote control, move the focus to **Edit Channel Number**, and press the **Select** button.
3. Use the up or down directional buttons on the remote control to change the channel number.
4. Move the focus to **OK** when done, and then press the **Select** button on the remote control.
 - When you change the channel number, the channel information is updated automatically.

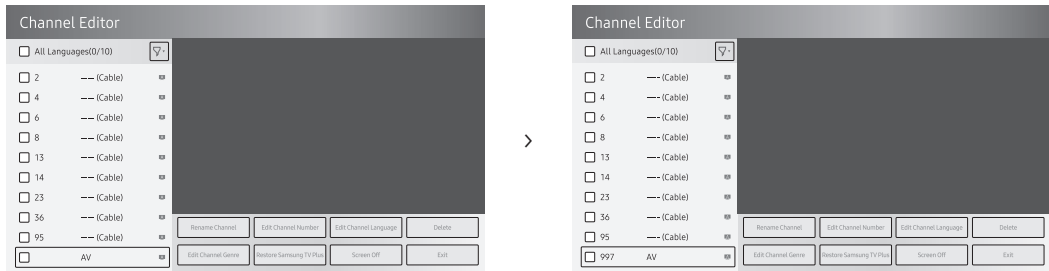

Rename the Channel

Change the name of a channel you select. To change the name of a channel, follow these steps:

1. Select a channel on the **Channel Edit** screen.
2. Use the directional buttons on the remote control, move the focus to **Rename channel**, and then press the **Select** button.
3. Use the on-screen keyboard that appears to enter the new name for the channel. Use the directional buttons on the remote control, move the focus a letter or number, and then press the **Select** button. Repeat for each letter or number you want to enter.
4. When finished, move the focus to **Done**, and then press the **Select** button on the remote control.

Assigning the Channel Number to the external device

The external device source of the TV are displayed in the last page of the **Channel Editor** menu as shown below.

1. Select a external device source on the **Channel Edit** screen.
 2. Use the directional buttons on the remote control, move the focus to **Edit Channel Number**, and press the **Select** button.
 3. Use the up or down directional buttons on the remote control to assign the channel number.
 4. Move the focus to **OK** when done, and then press the **Select** button on the remote control.
- Once you assign a channel number to an external device, you can enter the external device without opening the TV source menu.

09 Specifications and Other Information

Specifications (HG**Q60A*)

- For HG**Q60AAAW / HG**Q60AAAG model, refer to the next section.

Model Name	HG43Q60A	HG50Q60A
Display Resolution	3840 x 2160	3840 x 2160
Screen Size Measured Diagonally	108 cm	125 cm
Sound (Output)	20 W	20 W
Dimensions (W x H x D) Body With stand	96.55 x 55.98 x 2.57 cm 96.55 x 59.98 x 20.56 cm	111.83 x 64.45 x 2.57 cm 111.83 x 68.36 x 22.88 cm
Weight Without Stand With Stand	8.4 kg 8.9 kg	11.5 kg 12.2 kg
Model Name	HG55Q60A	HG65Q60A
Display Resolution	3840 x 2160	3840 x 2160
Screen Size Measured Diagonally	138 cm	163 cm
Sound (Output)	20 W	20 W
Dimensions (W x H x D) Body With stand	123.21 x 70.88 x 2.57 cm 123.21 x 74.78 x 22.88 cm	145.09 x 83.18 x 2.57 cm 145.09 x 87.10 x 28.18 cm
Weight Without Stand With Stand	15.5 kg 16.2 kg	20.9 kg 21.8 kg
Model Name	HG75Q60A	
Display Resolution	3840 x 2160	
Screen Size Measured Diagonally	189 cm	
Sound (Output)	20 W	
Dimensions (W x H x D) Body With stand	167.67 x 96.03 x 2.66 cm 167.67 x 100.55 x 34.04 cm	
Weight Without Stand With Stand	32.1 kg 33.3 kg	

Specifications (HG**Q60AAAW / HG**Q60AAAG)

Model Name	HG43Q60AAAW / HG43Q60AAAG	HG50Q60AAAW / HG50Q60AAAG

Environmental Considerations

Operating Temperature	50 °F to 104 °F (10 °C to 40 °C)
Operating Humidity	10 % to 80 %, non-condensing
Storage Temperature	-4 °F to 113 °F (-20 °C to 45 °C)
Storage Humidity	5 % to 95 %, non-condensing

Notes

- Singapore, Saudi Arabia Only: HG43Q60AAAW / HG50Q60AAAW / HG55Q60AAAW / HG65Q60AAAW / HG75Q60AAAW / HG50Q60AAAU / HG55Q60AAAU / HG65Q60AAAU / HG75Q60AAAU
- This device is a Class B digital apparatus.
- The design and specifications are subject to change without prior notice.
- For information about the power supply, and more information about power consumption, refer to the label-rating attached to the product.
- You can see the label-rating attached to the back of the TV. (For some models, you can see the label-rating inside the cover terminal.)
- Your TV and its accessories may look different than the product images presented in this manual, depending on the model.
- All drawings are not necessarily to scale. Some dimensions are subject to change without prior notice. Refer to the dimensions before installing your TV. Not responsible for typographical or printed errors.
- Recommended hours of use per day of this product is under 8 hours. If the product is used for longer than 8 hours a day, the warranty may be void.

Postcode for Emergency Broadcasts

Enter your postcode to receive emergency broadcasts for your local area.

 >  Menu >  Settings > All Settings > Broadcasting > Expert Settings > Postcode for Emergency Broadcasts >

Postcode

- This function may not be supported depending on the model or geographical area.

Decreasing power consumption

When you shut the TV off, it enters Standby mode. In Standby mode, it continues to draw a small amount of power. To decrease power consumption, unplug the power cord when you don't intend to use the TV for a long time.

Supported Resolutions for UHD Input Signals

- Resolution: 3840 x 2160p, 4096 x 2160p

If Input Signal Plus is set to Off

Frame rate (fps)	Colour Depth / Chroma Sampling	RGB 4:4:4	YCbCr 4:4:4	YCbCr 4:2:2	YCbCr 4:2:0
50 / 60	8 bit	-	-	-	0

If Input Signal Plus is set to On

Frame rate (fps)	Colour Depth / Chroma Sampling	RGB 4:4:4	YCbCr 4:4:4	YCbCr 4:2:2	YCbCr 4:2:0
50 / 60	8 bit	0	0	0	0
	10 bit	-	-	0	0

Supported Resolutions for Connecting a Computer

When you use your TV as a computer monitor, you can also select one of the standard resolutions listed in the Resolution column. The TV will automatically adjust to the resolution you choose.

Mode	Resolution	Display format	Horizontal frequency (KHz)	Vertical frequency (Hz)	Clock frequency (MHz)	Polarity (horizontal / vertical)
IBM	720 x 400	70 Hz	31.469	70.087	28.322	-/+
MAC	640 x 480	67 Hz	35.000	66.667	30.240	-/-
	832 x 624	75 Hz	49.726	74.551	57.284	-/-
	1152 x 870	75 Hz	68.681	75.062	100.000	-/-
VESA DMT	640 x 480	60 Hz	31.469	59.940	25.175	- / -
	640 x 480	72 Hz	37.861	72.809	31.500	- / -
	640 x 480	75 Hz	37.500	75.000	31.500	- / -

Read Before Using the Internet Function

Read this information before using the Internet function.

- File download is not supported.
- The **Internet** function may not be able to access certain websites, including websites operated by certain companies.
- The TV does not support playback of flash videos.
- E-commerce for online purchases is not supported.
- ActiveX is not supported.
- Only a limited number of fonts are supported. Certain symbols and characters may not be displayed properly.
- The response to remote commands and the resulting on-screen display may be delayed while a web page is loading.
- Loading a web page may be delayed or suspended completely depending on the status of the participating systems.
- Copy and paste operations are not supported.
- When composing an email or a simple message, certain functions such as the font size and colour selection may not be available.
- There is a limit to the number of bookmarks and the size of the log file that can be saved.
- The number of windows that can be opened concurrently is limited.
- Web browsing speed will differ with the network environment.
- Browsing history is saved from latest to oldest, with the oldest entries being overwritten first.
- Depending on the types of video/audio codecs supported, you may not be able to play certain HTML5 video and audio files.
- Video sources from PC-optimised streaming service providers may not play properly on our proprietary **Internet** browser.

Dimensions

- The displayed image may differ from your TV, depending on the model.
- Detailed dimensions can be checked at Displaysolutions.samsung.com.
