Wireless Noise Cancelling Stereo Headset

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

Do not throw the batteries (battery pack or batteries installed) to excessive heat such as sunshine, fire or the like for a long time.

Do not subject the batteries to extreme low temperature conditions that may result in interruptions and thermal runaway.

Do not dismantle, open or shred secondary cells or batteries.

Do not expose cells or batteries to heat or fire. Avoid storage in direct sunlight.

In the event of a cell leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.

Secondary cells and batteries need to be charged before use. Always refer to the manufacturer's instructions or equipment manual for proper charging instructions.

After extended periods of storage, it may be necessary to charge and discharge the cells or batteries several times to obtain maximum performance.

Dispose of properly.

This equipment has been tested and found to comply with the limits set out in the EMC regulation using a connection cable shorter than 3 meters.

Notice for customers: the following information is only applicable to equipment sold in countries applying EU directives

This product has been manufactured by or on behalf of Sony Corporation.
EU Importer: Sony Europe B.V.
Inquiries to the EU importer or related to product compliance in Europe should be sent to the manufacturer's authorized representative, Sony Belgium, bijkantoor van Sony Europe B.V., Da Vincilaan 7-D1, 1930 Zaventem, Belgium.

Hereby, Sony Corporation declares that this equipment is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following Internet address:
http://www.compliance.sony.de/

Disposal of waste batteries and electrical and electronic equipment (applicable in the European Union and other countries with separate collection systems)

This symbol on the product, the battery or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain batteries this symbol might be used in combination with a chemical symbol. The chemical symbol for lead (Pb) is added if the battery contains more than 0.004% lead. By ensuring that these products and batteries are disposed of correctly, you will help to prevent potentially negative consequences for the environment and human health which could be caused by inappropriate waste handling. The recycling of the materials will help to conserve natural resources. In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery and the electrical and electronic equipment will be treated properly, hand over these products at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the appropriate collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product or battery.

The validity of the CE marking is restricted to only those countries where it is legally enforced, mainly in the countries EEA (European Economic Area) and Switzerland.

High volume may affect your hearing.

Do not use the unit while walking, driving or cycling. Doing so may result in an accident.

Do not use at a dangerous place unless the surrounding sound can be heard.

The unit is not waterproof. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the unit, stop use immediately and consult your nearest Sony dealer. Be careful in the following cases.
- When using the unit around a sink, etc.
  Be careful that the unit does not fall into a sink or container filled with water.
- When using the unit in the rain or snow, or in humid locations
- When using the unit while you are sweaty
- If you touch the unit with wet hands, put the unit in the pocket of a damp article of clothing, and then touch it

For details on the effect of contact to the human body from the volume or other wireless devices connected to the unit, refer to the instruction manuals of the wireless devices.

Install the earbuds firmly. Otherwise, they may detach and be left in your ears, resulting in injury or illness.

There is a danger that this unit or its small parts may be swallowed. After use, store the unit in the charging case and store in a location out of the reach of small children.

Note on static electricity

Static electricity accumulated in the body may cause mild tingling in your ears. To reduce the effect, wear clothes made from natural materials, which suppress the generation of static electricity.

Notes on wearing the unit
- After use, remove the headphones slowly.
- Because the earbuds achieve a tight seal in the ears, forcibly pressing them in or quickly pulling them out can result in eardrum damage.
- When putting the earbuds into your ears, the negative pressure may produce a click sound. This is not a malfunction.

On BLUETOOTH® communications
- Bluetooth wireless technology operates within a range of about 10 m. The maximum communication distance may vary depending on the presence of obstacles (people, metal objects, walls, etc.) or the electromagnetic environment.
- Bluetooth communications may not be possible, or noise or audio dropout may occur under the following conditions.
  - When there is a person between the unit and the Bluetooth device. This situation may be improved by positioning the Bluetooth device so that it faces the aerial of the unit.
  - When there is an obstacle, such as a metal object or a wall, between the unit and the Bluetooth device.
  - When a Wi-Fi device or microwave oven is in use, or microwaves are emitted near the unit.
  - Compared to use indoors, use outdoors is subjected little to signal reflection from walls, floors, and ceilings, which results in audio dropout occurring more frequently than use indoors.
  - The aerial is built into the unit as indicated by the dotted line in the illustration (page **E**). The sensitivity of the Bluetooth communications can be improved by removing any obstacles between the connected Bluetooth device and the aerial of this unit.
- Bluetooth and Wi-Fi (IEEE802.11b/g/n) devices use the same frequency (2.4 GHz). When using the unit near a Wi-Fi device, electromagnetic interference may occur, resulting in noise, audio dropout, or the inability to connect. If this happens, try performing the following remedies.
  - Establish a connection between the unit and the Bluetooth device when they are at least 10 m away from the Wi-Fi device.
  - Turn off the Wi-Fi device when using the unit within 10 m of the Wi-Fi device.
  - Position the unit and the Bluetooth device as near as possible to each other.
- Microwaves emitting from a Bluetooth device may affect the operation of electronic medical devices. Turn off this unit and other Bluetooth devices in the following locations, as it may cause an accident.
  - Hospitals, near priority seating in trains, locations where inflammable gas is present, locations where automatic doors or fire alarms.
- The audio playback on this unit may be delayed from that on the transmitting device, due to the characteristics of Bluetooth wireless technology. As a result, the sound may not be in sync with the image when viewing movies or playing games.
- This unit emits radio waves when used in wireless mode.
  When used in wireless mode on an airplane, follow flight crew directions regarding permissible use of products in wireless mode.
- The unit supports security functions that comply with the Bluetooth standard as a means of ensuring security during communications using Bluetooth wireless technology. However, depending on the configured settings and other factors, this security may not be sufficient. Be careful when communicating using Bluetooth wireless technology.
- Sony shall assume no responsibility for any damages or loss resulting from information leaks that occur when using Bluetooth communications.
- Connection with all Bluetooth devices cannot be guaranteed.
  - Bluetooth devices connected with the unit must comply with the Bluetooth standard prescribed by Bluetooth SIG, Inc., and must be certified as compliant.
  - Even when a connected device complies with the Bluetooth standard, there may be cases where the characteristics or specifications of the Bluetooth device make it unable to connect, or result in different control methods, display, or operation.
  - When talking to a unit with hands-free talking on the phone, noise may occur depending on the connected device or communication environment.
- Depending on the device to be connected, it may require some time to start communications.

If sound skips frequently during playback
- The situation may be improved by setting the sound quality mode to "priority on stable connection." For details, refer to the Help Guide.
- The situation may be improved by turning off the wireless playback quality settings or fixing the wireless playback mode to SBC on the transmitting device. For details, refer to the operating instructions supplied with the transmitting device.
- When listening to music from a smartphone, the situation may be improved by closing unnecessary apps or restarting the smartphone.

On the use of calling apps for smartphones and computers
- This unit supports normal incoming calls only. Calling apps for smartphones and computers are not supported.

On charging the unit
- The unit can be charged using USB only. A computer with a USB port or a USB AC adaptor is required for charging.
- Be sure to use the supplied USB Type-C cable.
- When charging, the unit must be turned off and on the Bluetooth and noise cancelling functions cannot be used.
- Immediately wipe off any perspiration or water on the charging port after use. If perspiration or water is left on the charging port, it may impair the ability to charge the unit fully.
- If the unit is not used for a long time, the rechargeable battery may become charged quickly. The battery will be able to hold a proper charge after a discharge-charge cycle is performed several times. When storing the unit for a long time, charge the battery once a year to ensure that these products and batteries are disposed of correctly and will help to prevent potentially negative consequences for the environment and human health which could be caused by inappropriate waste handling. The recycling of the materials will help to conserve natural resources. In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery and the electrical and electronic equipment will be treated properly, hand over these products at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the appropriate collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product or battery.

Français

Casque stéréo sans fil à réduction de bruit

Ne pas installer l'appareil dans un espace clos, comme une bibliothèque ou une armoire encastrée.

Ne pas exposer les piles (bloc-batterie ou batteries installées) à une chaleur excessive comme les rayons du soleil, le feu ou tout autre élément analogue pendant une longue durée.

Ne pas exposer les piles à des conditions de température extrêmement basses pouvant entraîner une surchauffe et un emballement thermique.

Ne pas démonter, ouvrir ou déchiqueter des piles ou des batteries secondaires.

Ne pas exposer les piles ou les batteries à la chaleur ou au feu. Éviter tout entreposage au contact direct de la lumière du soleil.

En cas de fuite de pile, ne pas laisser le liquide entrer en contact avec la peau ou les yeux. En cas de contact avec la peau ou les yeux, laver la région touchée abondamment à l'eau, puis consulter un médecin.

Les piles et batteries secondaires doivent être chargées avant toute utilisation. Toujours se reporter aux instructions du fabricant ou au guide du matériel pour prendre connaissance des instructions de chargement appropriées.

Après toutes longues périodes d'entreposage, il peut être nécessaire de charger et de décharger les piles ou les batteries à plusieurs reprises afin d'obtenir des performances optimales.

Éliminer selon les dispositions en vigueur.

Cet équipement a été testé et déclaré conforme aux limites de la loi CEM en utilisant un câble de connexion de longueur inférieure à 3 mètres.

Avis aux clients : les informations suivantes ne s'appliquent qu'aux matériels vendus dans les pays appliquant les directives de l'UE

Ce produit a été fabriqué par ou pour le compte de Sony Corporation.
Importateur dans l'UE : Sony Europe B.V.
Les questions posées sur la législation européenne pour l'importateur ou relatives à la conformité des produits doivent être adressées au mandataire : Sony Belgium, bijkantoor van Sony Europe B.V., Da Vincilaan 7-D1, 1930 Zaventem, Belgique.

Le soussigné, Sony Corporation, déclare que cet équipement est conforme à la Directive 2014/53/UE.
Le texte complet de la déclaration UE de conformité est disponible à l'adresse internet suivante :
http://www.compliance.sony.de/

Elimination des piles et accumulateurs et des équipements électriques et électroniques usagés (applicable dans les pays de l'Union Européenne et dans les autres pays disposant de systèmes de collecte sélective)

Ce symbole apposé sur le produit, la pile ou l'accumulateur, ou sur l'emballage, indique que le produit et les piles et accumulateurs fournis avec ce produit ne doivent pas être traités comme de simples déchets ménagers. Sur certains types de piles, ce symbole apparaît parfois combiné avec un symbole chimique. Le symbole pour le plomb (Pb) est ajouté lorsque ces piles contiennent plus de 0,004 % de plomb. En vous assurant que les produits, piles et accumulateurs usagés sont mis au rebut de façon appropriée, vous participez activement à la prévention des conséquences néfastes que leur mauvais traitement pourrait provoquer sur l'environnement et la santé humaine. Le recyclage des matériaux contribue par ailleurs à la préservation des ressources naturelles. Pour les produits qui, pour des raisons de sécurité, de performances ou d'intégrité des données, nécessitent une connexion permanente à une pile ou à un accumulateur intégré(e), il conviendra de vous rapprocher d'un Service Après-Vente qualifié pour effectuer son remplacement. En rapportant votre appareil électrique, les piles et accumulateurs en fin de vie à un point de collecte approprié vous vous assurez que ceux-ci seront traités de manière intégré sera traité correctement. Pour tous les autres cas de figure, retirez les piles ou accumulateurs en toute sécurité de votre appareil, reportez-vous au manuel d'utilisation. Rapportez les piles et accumulateurs, et les équipements électriques et électroniques usagés au point de collecte approprié pour le recyclage. Pour toute information supplémentaire sur le sujet du recyclage de ce produit ou des piles et accumulateurs, vous pouvez contacter votre municipalité, votre déchetterie locale ou le point de vente où vous avez acheté le produit.

La validité du marquage CE est limitée aux seuls pays dans lesquels il est légalement en vigueur, principalement dans les pays de l'Espace économique européen) et en Suisse.

Un volume élevé peut altérer votre audition.

Ne pas utiliser l'appareil lorsque vous marchez, conduisez ou faites du vélo. Cela pourrait provoquer des accidents de la circulation.

Ne pas utiliser l'appareil dans un endroit dangereux à moins que les bruits environnants puissent être entendus.

L'appareil n'est pas étanche. Si de l'eau ou des corps étrangers pénètrent dans l'appareil, cela pourrait provoquer un incendie ou une électrocution. Si de l'eau ou un corps étranger pénètre dans l'appareil, arrêter immédiatement de l'utiliser et contacter votre revendeur Sony le plus proche. En particulier, ne pas oublier de suivre les recommandations ci-dessous.
- Utilisation à côté d'un évier, etc.
  Veiller à ce que l'appareil ne tombe pas dans un évier ou un récipient rempli d'eau.
- Utilisation sous la pluie ou la neige, voire dans des lieux humides
- Utilisation lorsque la transpiration
  Si vous touchez l'appareil avec des mains mouillées ou si vous le placez dans la poche d'un vêtement humide, il pourra être endommagé.

Pour obtenir de plus amples informations sur l'effet du contact sur le corps humain et le téléphone portable ou autre appareil électronique sans fil connectés à l'appareil, se reporter au mode d'emploi de l'appareil électronique sans fil.

Installer les oreillettes fermement. À défaut, elles pourront se détacher et rester coincées dans l'oreille, entraînant ainsi des blessures ou des maladies.

Cet appareil ou ses petites pièces présentent un risque d'ingestion. Après utilisation, entreposer l'appareil dans l'étui de chargement, puis le ranger dans un endroit hors de portée des enfants.

Remarque sur l'électricité statique

L'électricité statique accumulée dans le corps peut provoquer une sensation de picotements dans les oreilles. Pour réduire tout effet connexe, porter des vêtements naturels qui limitent la production d'électricité statique.

Remarques sur le port de l'appareil
- Après utilisation, retirez l'appareil en douceur.
- Les oreillettes permettant d'établir un joint étanche sur les oreilles, le fait de les presser avec vigueur ou de les retirer rapidement peut entraîner des lésions des tympans.
- Lors du placement des oreillettes dans vos oreilles, le diaphragme du haut-parleur peut produire un clapotis. Il ne s'agit pas d'un dysfonctionnement.

Oreillettes à triple confort

Les oreillettes à triple confort fournies présentent une forme idéale pour bloquer efficacement les bruits ambiants.

Remarques
- L'utilisation prolongée d'oreillettes ajustées peut faire apparaître des signes de tension sur vos oreilles. Si vous ressentez une gêne, arrêtez de les utiliser.
- Ne tirez pas sur la partie en silicone en mousse des oreillettes. Si vous tirez sur la silicone en mousse est séparée des oreillettes, celles-ci ne fonctionneront pas.
- Placez le dispositif et l'appareil Bluetooth le plus près possible l'un de l'autre.
- Les micro-ondes émises par tout appareil Bluetooth peuvent affecter le fonctionnement des dispositifs médicaux électroniques. Éteignez le dispositif et tout autre appareil Bluetooth dans les lieux susceptibles d'être touché accidentellement :
  - dans les hôpitaux, à proximité des sièges prioritaires de train, des endroits accueillant tout gaz inflammable, ainsi que près des alarmes incendie ou des portes automatiques.
- La lecture audio sur ce dispositif peut être différée par rapport à celle de tout appareil émettteur, en raison des caractéristiques de la technologie sans fil Bluetooth. Par conséquent, il se peut que l'audio ne soit pas synchronisé avec l'image de vos films ou vidéos.
- Ce produit émet des ondes radio lorsqu'il est utilisé en mode sans fil.
  En cas de doute sur les procédures à suivre lorsque vous marchez, conduisez ou faites du vélo, veuillez vous conformer aux lois et réglementations en vigueur.
- Ce produit prend en charge des fonctions de sécurité conformes à la norme Bluetooth pour garantir la sécurité pendant la communication à l'aide de la technologie sans fil Bluetooth. Toutefois, en fonction des paramètres définis et d'autres facteurs, ces mesures de sécurité peuvent se révéler insuffisantes. Soyez prudent lors de toute communication utilisant la technologie sans fil Bluetooth.
- Sony décline toute responsabilité en cas de dommages ou de pertes découlant de fuites d'informations survenues lors de l'exploitation de la communication Bluetooth.
- La connexion à toutes les unités d'appareils Bluetooth ne peut être garantie.
  - Les appareils Bluetooth connectés à l'appareil doivent être conformes à la norme Bluetooth prescrite par Bluetooth SIG, Inc. et doivent être certifiés conformes.
  - Même lorsqu'un appareil connecté est conforme à la norme Bluetooth, il se peut qu'il existe des circonstances où les caractéristiques ou les spécifications empêchent la connexion de l'appareil Bluetooth, voire déboucher sur divers affichages, opérations et méthodes de contrôle.
  - En cas d'utilisation du mode mains libres de l'appareil, des nuisances sonores peuvent être émises en fonction de l'appareil connecté ou de l'environnement de communication pertinent.
- Selon l'appareil à connecter, il peut s'écouler un certain temps avant que la communication ne démarre.

Si le son saute fréquemment pendant la lecture
- La situation pourrait s'améliorer en paramétrant le mode de qualité du son sur « Priorité à une connexion stable ». Pour de plus amples renseignements, consultez votre Guide d'aide.
- La situation pourra s'améliorer en modifiant les paramètres de qualité de lecture sans fil ou en réparant le mode lecture sans fil sur SBC du dispositif de transmission. Pour de plus amples renseignements, reportez-vous au mode d'emploi fourni avec l'appareil de transmission.
- En cas d'écoute de musique depuis un smartphone, la situation pourra s'améliorer en fermant les applications inutiles ou en redémarrant le smartphone.

Utilisation des applications d'appel pour smartphones et ordinateurs
- Ce dispositif prend en charge uniquement les appels entrants normaux. Les applications d'appel pour smartphones et ordinateurs ne sont pas prises en charge.

Chargement du dispositif
- Ce dispositif ne peut être rechargé qu'à l'aide d'un port USB. Un ordinateur doté d'un port USB ou un adaptateur secteur USB est nécessaire pour la charge.
- Assurez-vous d'utiliser le câble USB Type-C fourni.
- Lors du chargement, le dispositif ne peut être utilisé et les fonctions Bluetooth et Réduction de bruit ne peuvent être utilisées.
- Essuyez immédiatement toute goutte de sueur ou d'eau présente sur le port de chargement après utilisation. Si de la sueur ou de l'eau reste sur le port de chargement peut nuire à la capacité de charge du dispositif (Fig. **D**).
- En l'absence d'utilisation du dispositif pendant une longue période, la batterie rechargeable pourra s'épuiser rapidement. La batterie pourra conserver une capacité de charge appropriée après avoir été déchargée et rechargée à plusieurs reprises. En cas d'entreposage du dispositif pendant une longue période, chargez la batterie une fois tous les six mois afin d'éviter tout endommagement.

La validité du marquage CE est limitée aux seuls pays dans lesquels il est légalement en vigueur, principalement dans les pays de l'Espace économique européen) et en Suisse.

Un volume élevé peut altérer votre audition.

Ne pas utiliser l'appareil lorsque vous marchez, conduisez ou faites du vélo. Cela pourrait provoquer des accidents de la circulation.

Ne pas utiliser l'appareil dans un endroit dangereux à moins que les bruits environnants puissent être entendus.

L'appareil n'est pas étanche. Si de l'eau ou des corps étrangers pénètrent dans l'appareil, cela pourrait provoquer un incendie ou une électrocution. Si de l'eau ou un corps étranger pénètre dans l'appareil, arrêter immédiatement de l'utiliser et contacter votre revendeur Sony le plus proche. En particulier, ne pas oublier de suivre les recommandations ci-dessous.
- Utilisation à côté d'un évier, etc.
  Veiller à ce que l'appareil ne tombe pas dans un évier ou un récipient rempli d'eau.
- Utilisation sous la pluie ou la neige, voire dans des lieux humides
- Utilisation lorsque la transpiration
  Si vous touchez l'appareil avec des mains mouillées ou si vous le placez dans la poche d'un vêtement humide, il pourra être endommagé.

Pour obtenir de plus amples informations sur l'effet du contact sur le corps humain et le téléphone portable ou autre appareil électronique sans fil connectés à l'appareil, se reporter au mode d'emploi de l'appareil électronique sans fil.

Installez les oreillettes fermement. À défaut, elles pourront se détacher et rester coincées dans l'oreille, entraînant ainsi des blessures ou des maladies.

Cet appareil ou ses petites pièces présentent un risque d'ingestion. Après utilisation, entreposez l'appareil dans l'étui de chargement, puis le rangez dans un endroit hors de portée des enfants.

Remarque sur l'électricité statique

L'électricité statique accumulée dans le corps peut provoquer une sensation de picotements dans les oreilles. Pour réduire tout effet connexe, portez des vêtements naturels qui limitent la production d'électricité statique.

Remarques sur le port de l'appareil
- Après utilisation, retirez l'appareil en douceur.
- Les oreillettes permettant d'établir un joint étanche sur les oreilles, le fait de les presser avec vigueur ou de les retirer rapidement peut entraîner des lésions des tympans.
- Lors du placement des oreillettes dans vos oreilles, le diaphragme du haut-parleur peut produire un clapotis. Il ne s'agit pas d'un dysfonctionnement.

Oreillettes à triple confort

Les oreillettes à triple confort fournies présentent une forme idéale pour bloquer efficacement les bruits ambiants.

Remarques
- L'utilisation prolongée d'oreillettes ajustées peut faire apparaître des signes de tension sur vos oreilles. Si vous ressentez une gêne, arrêtez de les utiliser.
- Ne tirez pas sur la partie en silicone en mousse des oreillettes. Si vous tirez sur la silicone en mousse est séparée des oreillettes, celles-ci ne fonctionneront pas.
- Ne soumettez pas la partie en silicone en mousse des oreillettes à des pressions trop longues, car cela pourrait entraîner une déformation.
- Les tailles variables des orifices sur la partie en silicone en mousse des oreillettes n'ont aucun effet sur la qualité sonore.
- Vous pouvez entendre un bruit de craquement dans vos oreilles lors du port d'oreillettes. Il ne s'agit pas d'un dysfonctionnement.
- Les matériaux en mousse utilisés d

Modelli iPhone/iPod compatibili

iPhone X, iPhone 8 Plus, iPhone 8, iPhone 7 Plus, iPhone 7, iPhone SE, iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPhone 5s, iPod touch (5a generazione)

(A partire da maggio 2019)

Nederlands

Draadloze geluidsonderdrukkende stereokoptelefoon

Installeer het toestel niet in een krappe ruimte zoals een boekenrek of ingebouwde kast.

Stel de batterijen (accu's of niet-oplaadbare batterijen) niet langdurig bloot aan oververhitting, zoals van de zon, vuur en dergelijke.

Stel de batterijen niet bloot aan extreem lage temperaturen. Deze kunnen namelijk oververhitting en ontsteking veroorzaken.

Bovendien, open of vernietig accu's of batterijen niet.

Het accu's of batterijen niet bloot aan hitte of vuur. Vermijd opslag in direct zonlicht.

Als een accu lekt, mag de vloeistof niet aan de huid of ogen komen. Als er contact heeft plaatsgevonden, dient u de getroffen zone dan overvloedig met water en roep medische hulp in.

Accu's en batterijen moeten worden opgeladen door een geschikt oplaadapparaat dat voldoet aan de fabrikant of de apparaathandleiding voor de juiste oplaadprocedures.

Na lange oplagesperiodes kan het nodig zijn om de accu's of batterijen meerdere malen op te laden en te ontladen om optimale prestaties te bereiken.

Verwijder op de correcte wijze.

Deze apparatuur is getest en voldoet aan de beperkingen vastgelegd in de EMC richtlijnen voor het gebruik van een verbindingskabel korter dan 3 meter.

Kennisgeving voor klanten: de volgende informatie is alleen van toepassing op apparatuur die wordt verkocht in landen waar de EU-richtlijnen van toepassing zijn

Dit product werd vervaardigd door of in opdracht van Sony Corporation.

De importeur voor de Europese B.V. Vragen aan de EU-importeur of met betrekking tot Europese productconformiteit kunnen worden gericht aan de gemachtigde vertegenwoordiger, Sony Belgium, bijkantoor van Sony Europe B.V., Da Vincilaan 7-D1, 1930 Zaventem, België.

Hierbij verklaart Sony Corporation dat deze radioapparatuur conform is met Richtlijn 2014/53/EU.

De volledige tekst van de EU-conformiteitsverklaring kan worden geraadpleegd op het volgende internetadres: http://www.compliance.sony.de/

Verwijdering van oude batterijen, elektrische en elektronische apparaten (van toepassing in de Europese Unie en andere landen met afzonderlijke inzamelsystemen)

Dit symbool op het product, de batterij of op de verpakking wijst op dat het product en de batterij, niet als huishoudelijk afval behandeld mogen worden. Op sommige batterijen kan dit symbool gebruikt worden in combinatie met een chemisch symbool. Het chemisch symbool voor lood (Pb) wordt toegevoegd wanneer de batterij meer dan 0,004% lood bevat. Door deze producten en batterijen op juiste wijze af te voeren, voorkomt u mogelijke negatieve gevolgen voor mens en milieu die zijn gekoppeld aan verkeerde afvalverwerking. Het recyclen van de materialen draagt bij aan het behoud van natuurlijke bronnen. Het goed dat de producten om redenen van veiligheid, prestaties of gegevens-integriteit een permanente verbinding met een ingebouwde batterij vereisen, mag deze batterij alleen door gekwalificeerd servicepersoneel worden vervangen. Om ervoor te zorgen dat de batterij, elektrische en elektronische apparaten op een juiste wijze zal worden behandeld, dienen deze producten aan het einde van hun levenscyclus worden ingeleverd bij het juiste inzamelpunt voor het recyclen van elektrisch en elektronisch materiaal. Voor alle andere batterijen verwijzen we u naar het hoofdstuk over het veilig verwijderen van batterijen. Lever de batterijen in bij het juiste inzamelpunt voor het recyclen van batterijen. Voor meer informatie over het recyclen van dit product of de batterij, kunt u contact opnemen met de gemeentelijke instanties, de organisatie belast met de verwijdering van huishoudelijk afval of de winkel waar u het product of batterij hebt gekocht.

De geldigheid van de CE-markering is beperkt tot de landen waar deze wettelijk vereist is, hoofdzakelijk in de landen van de EER (Europese Economische Ruimte) en Zwitserland.

Een hoog volume kan uw gehoor beschadigen.

Gebruik het toestel niet tijdens het wandelen, rijden of fietsen. Als u dat wel doet, kan dat leiden tot ongevallen.

Gebruik het toestel niet op een gevaarlijke plaats, tenzij u de omgevingsgeluiden kunt horen.

Het toestel is niet waterdicht. Als er water of verontreinigingen in het toestel terechtkomen, kan dat brand of een elektrische schok veroorzaken. Als er water of verontreinigingen in het toestel terechtkomen, stop dan onmiddellijk met het gebruik ervan en neem contact op met de electrische dienst. Sony-verdeler. Zorg vooral dat u de onderstaande voorzorgsmaatregelen in acht neemt.

- Gebruik rond een gootsteen enz.
- Zorg dat het toestel niet in een gootsteen of een bak met water valt.
- Gebruik in de buurt of sneeuw, of op vochtige plaatsen.
- Gebruik onder slechtweersomstandigheden, zoals regen, sneeuw of hoge vochtigheid.
- Gebruik de gebruikersaanwijzing van het draadloze apparaat voor meer informatie over het effect van contact tussen het menselijk lichaam en de mobiele telefoon of andere draadloze apparaten die verbonden zijn met het toestel.

Bevestig de oordopjes stevig. Doet u dit niet, dan kunnen ze buiten en in uw oren blijven en kan wat verwonding of ziekte kan veroorzaken.

Het gevaar bestaat dat dit toestel of kleine onderdelen ervan worden ingeslikt. Bewaar het daarom buiten het bereik van kinderen.

Opmerking over statische elektriciteit

Opgestapelde statische elektriciteit in het lichaam kan een lichte tinteling in uw oren veroorzaken. Draag om dat effect te verminderen kleren gemaakt van natuurlijke materialen, die de opwekking van statische elektriciteit beperken.

Português

Auscultadores estéreo de cancelamento do ruído sem fios

Não instale o aparelho num local confinado como, por exemplo, uma estante ou um armário embutido.

Não exponha as baterias (baterias ou baterias instaladas) a calor excessivo como, por exemplo, luz solar, fogo ou outra fonte de calor durante um longo período de tempo.

Não sujeite as baterias a temperaturas extremamente baixas que possam resultar em sobreaquecimento ou explosão ou perigo incêndio.

Não permita que as baterias ou as baterias ao calor ou ao fogo. Evite armazenar sob luz solar direta. Se ocorrerem fugas de bateria, não permita que o líquido entre em contacto com a pele ou os olhos. Em caso de contacto, lave a área afetada com água em abundância e consulte um médico. As pilhas recarregáveis devem ser totalmente carregadas antes da utilização. Consulte sempre as instruções do fabricante da bateria ou equipamento para obter as instruções de carregamento adequadas.

Após longos períodos de armazenamento, poderá ser necessário carregar e descarregar as pilhas ou baterias várias vezes para obter o máximo desempenho.

Elimine de forma adequada.

Este equipamento foi testado e demonstrou que cumpre os limites definidos nos regulamentos de Compatibilidade Eletromagnética (CEM) quando utilizado com o cabo de ligação com comprimento inferior a 3 metros.

Aviso para clientes: as informações seguintes só se aplicam a equipamentos vendidos em países sujeitos às diretivas da UE

Este produto foi fabricado por ou em nome da Sony Corporation.

Importador na UE: Sony Europe B.V.

Questões ao importador na UE ou relacionadas com a conformidade de produto na Europa devem ser enviadas ao representante autorizado do fabricante, Sony Belgium, bijkantoor van Sony Europe B.V., Da Vincilaan 7-D1, 1930 Zaventem, Bélgica.

Por este meio, a Sony Corporation declara que o presente equipamento está em conformidade com a Diretiva 2014/53/UE. O texto integral da declaração de conformidade está disponível no seguinte endereço de Internet:

CE

Tratamento de pilhas, baterias e equipamentos elétricos e eletrónicos no fim de vida útil (aplicável na União Europeia e em países com sistemas de recolha seletiva individual)

Este símbolo, colocado no produto, na pilha ou bateria ou na embalagem, indica que o produto e a pilha ou bateria não devem ser tratados como resíduos urbanos indiferenciados. Em determinadas pilhas e baterias, este símbolo pode ser utilizado em combinação com um símbolo químico. O símbolo químico para chumbo (Pb) é adicionado se a pilha ou bateria contiver mais de 0,004% de chumbo. Ao garantir uma eliminação adequada destes produtos e de pilhas, baterias, incluindo pilhas, baterias e produtos elétricos e eletrónicos, ajuda a evitar potenciais consequências nocivas para o meio ambiente e para a saúde pública que poderiam ser provocadas pela sua eliminação incorreta. A reciclagem de materiais ajuda a conservar recursos naturais. Se, por motivos de segurança, desempenho ou integridade de dados, os produtos necessitarem de uma ligação permanente a uma pilha ou bateria integrada, esta pilha ou bateria substituída por profissionais qualificados. Acabado o período de vida útil do produto, coloque-os num ponto de recolha de produtos elétricos e eletrónicos, de forma a garantir o tratamento adequado dos produtos e da pilha ou bateria integrada. Para todas as outras pilhas ou baterias, consulte as instruções do produto relativas à remoção segura da pilha ou bateria com ponto de recolha destinado à reciclagem destas pilhas ou baterias usadas. Para informações mais detalhadas sobre a reciclagem deste produto ou de uma pilha ou bateria, contacte o município onde reside, os serviços de recolha de resíduos ou do ponto de venda onde adquiriu o produto ou a pilha ou bateria.

A validade das marcas CE está limitada aos países em que é aplicável por lei, sobretudo nos países do EEE (Espaço Económico Europeu) e Suíça.

O volume elevado pode afetar a sua audição.

Não utilize a unidade enquanto estiver a conduzir, andar de bicicleta, etc. Caso contrário, fá-lo-á correr o risco de ocasionar acidentes na estrada.

Não utilize em locais perigosos, exceto se conseguir ouvir o som circundante.

A unidade não é à prova de água. Se água ou objetos estranhos entrarem na unidade, pode ocorrer um incêndio ou choque elétrico. Se água ou um objeto estranho entrar na unidade, pare de imediato a sua utilização e contacte o agente Sony mais próximo. Tenha especial cuidado as precauções abaixo apresentadas.

- Utilização junto de uma lavatório, etc.
- Tenha cuidado para que a unidade não caia num lavatório ou noutro recipiente cheio de água.
- Utilização à chuva ou na neve ou em locais húmidos
- Utilização enquanto estiver transpirado
- Se tocar na unidade com as mãos molhadas ou se colocar a unidade molhada, pode ocorrer uma roupa molhada, a unidade pode ficar molhada.

Para obter mais detalhes, consulte a secção de contacto do corpo humano com o telemóvel ou outros dispositivos sem fios fornecida na unidade consulte o manual de instruções do dispositivo sem fios.

Instale os auriculares firmemente. Caso contrário, eles podem-se soltar e ficar dentro dos seus ouvidos, provocando lesões ou doenças.

Há o risco de ser ensaiada ou das respetivas peças pequenas poderem ser engolidas. Depois de utilizar, guarde-o num local de caixa de carregamento e num local fora do alcance de crianças pequenas.

Nota sobre eletricidade estática

A eletricidade estática acumulada no corpo pode provocar uma formigueira pequena nos ouvidos. Para reduzir o efeito, utilize roupas feitas com materiais naturais que suprimam a geração de eletricidade estática.

Precauções

Notas sobre as comunicações por BLUETOOTH®

- A tecnologia sem fios Bluetooth funciona num alcance de cerca de 10 m. A distância máxima de comunicação poderá variar dependendo da presença de obstáculos (pessoas, objetos metálicos, paredes, etc.) ou ambiente de eletromagnético.
- A comunicação via sem fios por Bluetooth poderão não ser possíveis ou poderá ocorrer ruído ou falha do áudio nas seguintes condições:
  - Quando estiver uma pessoa entre a unidade e o dispositivo Bluetooth. Esta situação poderá ser melhorada se colocar o dispositivo Bluetooth de forma a que fique de cara da unidade.
  - Quando existir um obstáculo como, por exemplo, um objeto metálico ou uma parede, entre a unidade e o dispositivo Bluetooth.
  - Quando existir um dispositivo Wi-Fi, forno de micro-ondas ou outro dispositivo a emitir micro-ondas perto da unidade.
  - Quando estiverem ligados vários dispositivos Bluetooth compatíveis e/ou dispositivos sem fios que utilizem a mesma frequência (2,4 GHz). Ao utilizar a unidade perto de um dispositivo Wi-Fi, poderá ocorrer interferências eletromagnéticas e/ou ruído, falha do áudio ou impossibilidade de estabelecer ligação. Neste caso, tente efetuar as seguintes ações:
    - Estabeleça uma ligação entre a unidade e o dispositivo Bluetooth quando estiverem a, pelo menos, 10 m de distância do dispositivo Wi-Fi.
    - Desligue o dispositivo Wi-Fi quando utilizar a unidade a uma distância até 10 m do dispositivo Wi-Fi.
    - Posicione a unidade e o dispositivo Bluetooth o mais próximo possível um do outro.
- As micro-ondas emitidas por um dispositivo Bluetooth poderão afetar o funcionamento de dispositivos médicos eletrónicos. Desligue esta unidade e outros dispositivos Bluetooth em locais a seguir apresentados, uma vez que poderão ocorrer acidentes:
  - Em hospitais, próximo de lugares prioritários em corredores, locais onde existam inflamável, perto de portas automáticas ou de portas de incêndio.
- A reprodução de áudio nesta unidade poderá apresentar algum atraso relativamente a partir do dispositivo de transmissão. Tal acontece devido às características de ligação sem fios Bluetooth. Consequentemente, o som poderá não estar sincronizado com a imagem durante a visualização de filmes ou em jogos.
- Este produto emite ondas de rádio quando utilizado no modo sem fios.
- Quando utilizado no modo sem fios num avião, siga as indicações da tripulação relativamente à utilização de produtos no modo sem fios.
- A unidade suporta funções de segurança que são compatíveis com a norma Bluetooth. Estas funcionam como um meio para garantir a segurança durante a comunicação utilizando a tecnologia sem fios Bluetooth. No entanto, dependendo das definições configuradas e de outros fatores, esta segurança poderá não ser suficiente. Tenha sempre cuidado ao comunicar através da tecnologia sem fios Bluetooth.
- A Sony não é responsável por quaisquer danos ou perdas resultantes de fugas de informação aquando da utilização de ligações Bluetooth.
- A ligação com todos os dispositivos Bluetooth não pode ser garantida.
  - Os dispositivos Bluetooth ligados à unidade têm de cumprir a norma Bluetooth prescrita pela Bluetooth SIG, Inc. e a sua conformidade tem de ser certificada.
  - Mesmo quando um dispositivo ligado está em conformidade com a norma Bluetooth, podendo existir situações em que as características ou especificações do dispositivo Bluetooth impossibilitem-no de efetuar a ligação ou resultam em métodos de controlo, visualização ou operação diferentes.
  - Ao utilizar a unidade para efetuar chamadas telefónicas no modo mãos-livres, poderá ocorrer ruído dependendo do dispositivo ligado ou do ambiente da comunicação.
- Dependendo do dispositivo a ser ligado, poderá ser necessário algum tempo para iniciar a comunicação.

Se o som falhar frequentemente durante a reprodução

- A situação poderá ser melhorada se definir o modo de qualidade do som para Qualidade à ligação estável. Para obter mais informações, consulte o Guia de ajuda.
- A situação poderá ser melhorada se alterar as definições de qualidade de reprodução ou se for corrigir o modo de reprodução sem fios para Sbc ou outras transmissões. Para obter mais informações, consulte o manual de instruções do dispositivo transmissor.
- Ao usar música a partir de um smartphone, a situação poderá ser melhorada se fechar as aplicações desnecessárias no smartphone.

Notas sobre a utilização de aplicações de chamadas para smartphones e computadores

- Esta unidade suporta apenas as chamadas recebidas normais. As aplicações de chamadas para computadores e computadores não são suportadas.

Notas sobre o carregamento da unidade

- Esta unidade só pode ser carregada através de dispositivos USB. Para carregar, é necessário um computador ou outra porta USB ou um transformador de CA USB.
- Certifique-se de liga o cabo USB Type-C fornecido.
- Quando estiver a carregar, a unidade não pode ser ligada e as funções Bluetooth e de carateristica não podem ser utilizadas.
- Limpe imediatamente qualquer vestígio de transpiração ou água na porta de carregamento após a utilização. A presença de vestígios de transpiração ou água na porta de carregamento poderá afetar o carregamento ou a transferência de dados.
- Se a unidade não for utilizada durante um longo período de tempo, a bateria recarregável poderá esgotar-se rapidamente. Recomenda-se a recuperação a capacidade de carga depois de ser descarregada após a sua utilização regular. Ao armazenar a unidade durante um longo período de tempo, carregue a bateria uma vez a cada 6 meses para evitar a descarga excessiva.
- Se a carga da bateria recarregável se esgotar muito rapidamente, deve ser substituída por uma nova. Contacte o agente Sony mais próximo para obter uma bateria de substituição.

Se a unidade não funcionar corretamente

- Siga o procedimento abaixo para carregar a unidade (Fig.).

Coloque as unidades na caixa de carregamento e, em seguida, toque sem soltar no painel de controlo do sensor de toque no auscultador esquerdo. Quando o indicador (vermelho) na unidade e, depois, apos piscar (após cerca de 10 segundos), deixe de piscar, deixe de tocar no painel de controlo do sensor de toque. Se o indicador não piscar após cerca de 20 segundos, deixe de tocar no painel de controlo do sensor de toque. As informações de emparelhamento e outras definições são mantidas, mesmo quando a unidade é reposta.

- Se o problema persistir mesmo depois de a unidade ser reposta, efetue o procedimento abaixo para inicializar a unidade.

Coloque as unidades na caixa de carregamento e, em seguida, toque sem soltar no painel de controlo do sensor de toque na unidade esquerda e direita durante cerca de 7 segundos. Quando os indicadores (vermelhos) começarem a piscar (após cerca de 10 segundos), deixe de tocar no painel de controlo do sensor de toque. O indicador (azul) pisca 4 vezes e a unidade é inicializada e reposta para as definições de fábrica. Quando a unidade é inicializada, todas as informações de emparelhamento são apagadas.

- Depois de a unidade ser inicializada, poderá não haja de ser possível emparelhar. Se assim for, apague as informações de emparelhamento registadas no dispositivo ou no computador e, em seguida, efetue novamente o emparelhamento.

Peças de substituição: Auriculares em borracha de silicone hibrido longos, auriculares de tripla camada

Consulte o agente Sony mais próximo para informações sobre as peças de substituição.

CE

Bortskaffelse af udtjente batterier samt elektriske og elektroniske produkter (gælder for den Europæiske Union og andre lande med særskilte indsamlingssystemer)

Dette symbol på produktet, batteriet eller emballagen betyder, at produktet og batteriet ikke må behandles som husholdningsaffald. På visse batterier kan dette symbol anvendes i kombination med et kemisk symbol. Det kemiske symbol for bly (Pb) er anført, hvis batteriet indeholder mere end 0,004 % bly. Ved at sikre dig korrekt affaldshåndtering af disse produkter og batterier bortskaffes kortet, hvilket kan forebygge potentielle negative konsekvenser for miljø og sundhed, som ellers ukorrekt affaldshåndtering af produktet kan medføre. Genanvendelse af materialer bidrager til at bevare naturlige ressourcer. Hvis der, af hensyn til sikkerhed, ydelse eller datasikkerhed, er behov for en fast elektrisk tilslutning af batteriet til disse produkter, bør batteriet kun fjernes af dertil uddannet personale. For at sikre at batteri og elektrisk og elektronisk udstyr skal de udtjente produkter afleveres på et dertil udpeget specielt indrettet til genanvendelse af elektrisk og elektronisk udstyr. For alle andre batterier se venligst afsnittet om sikker fjernelse af batterier, se venligst afsnittet der omhandler sikker fjernelse af batterier. Aflever batterierne på et indsamlingssted beregnet til affaldshåndtering af genanvendelige batterier. Yderligere information om genanvendelse af dette produkt eller batteri kan fås ved at kontakte den kommunale genbrugsstation eller den butik, hvor du købte produktet eller batteriet.

CE-mærkningen gælder kun for de lande, hvor den håndhæves juridisk. Den gælder hovedsagelig i EØS-lande (det Europæiske Økonomiske Samarbejdsområde) og Schweiz.

Høj lydstyrke kan påvirke din hørelse.

Brug ikke enheden, mens du går, kører eller cykler. Ellers kan det forårsage ulykker.

Brug ikke på et farligt sted, medmindre den omgivende lyd kan høres.

Enheden er ikke vandtæt. Hvis der trænger vand eller fremmedlegemer ind i enheden, kan det medføre brand eller elektrisk stød. Hvis der trænger vand eller fremmedlegemer ind i enheden, skal du holde op med at bruge den og kontakte din nærmeste Sony-forhandler. Husk især at følge nedenstående forholdsregler.

- Anvendse omkring en vask osv.
- Sørg for, at enheden ikke falder ned i en vask eller beholder fyldt med vand.
- Brug ikke enheden i nærheden af eller på fugtige steder.
- Anvendelse, når du er svedig.

Hvis du farer ved enhedsden med våde hænder eller lægger enheden på et vådt sted, kan vand komme ind i enheden, og det kan forårsage brand eller elektrisk stød.

Sørg for at sætte ørestykkerne godt fast. Ellers kan ørestykkerne blive siddende i ørerne, og det kan forårsage personskade.

Der er risiko for, at denne enhed eller dens små dele kan blive slugt. Efter brug skal du opbevare enheden i sikkerhed og utilgængelig for børn for at undgå uheld.

Bemærkning om statisk elektricitet

Statisk elektricitet opbygget i kroppen, kan forårsage en mild prikken i ørerne. For at reducere effekten skal du bære tøj, der er fremstillet af naturmaterialer, hvilket dæmper dannelsen af statisk elektricitet.

CE

Kassering av gamle batterier og elektrisk og elektronisk utstyr (gjelder i den europeiske union og andre land med separate innsamlingssystem)

Dette symbolet på produktet, batteriet eller emballasjen indikerer at dette produktet og batteriene ikke må behandles som husholdningsavfall. På enkelte batterier kan dette symbolet brukt i kombinasjon med et kjemisk symbol. Det kjemiske symbolet for bly (Pb) legges til hvis batteriet inneholder mer enn 0,004 % bly. Ved å sørge for at disse produktene og batteriene avhendes på korrekt måte, er du med på å forhindre mulige negative konsekvenser for miljø og helse, som kunne vært forårsaket av feilaktig avfallshåndtering av disse produktene. Gjenvinning av disse materialene bidrar til å spare på naturressurser. Hvis det er produkter som av sikkerhets-, ytelses- eller dataintegritetsmessige årsaker er permanent tilkobling til et integrert batteri, bør dette batteriet bare skiftes ut av kvalifisert servicepersonell. For å sikre at batteriet og det elektriske og elektroniske utstyret blir behandlet korrekt, må du levere disse produktene til en egnet innsamlingsstasjon for resirkulering av elektronisk utstyr ved endt levetid. For alle andre batterier kan du se i avsnittet om hvordan du fjerner batteriet på riktig måte. Lever batteriene ved en passende innsamlingsstasjon for brukte batterier. Hvis du vil ha mer informasjon om gjenvinning av dette produktet eller batteriet, kan du kontakte lokale myndigheter, renovasjonsetaten, butikken der du kjøpte produktet eller batteriet.

Gyldigheten til CE-merkingen er begrenset til de landene hvor dette er påbudt ved lov, hovedsakelig i EØS-land (det europeiske økonomiske samarbeidsområdet) og Sveits.

Høyt volum kan påvirke hørselen din.

Ikke bruk enheten mens du går, kjører eller sykler. Dette kan forårsake trafikkulykker.

Ikke bruk enheten på et farlig sted med mindre lyden fra miljøet kan høres.

Enheten er ikke vannsikker. Hvis vann eller fremmedlegemer kommer inn i enheten, kan det føre til brann eller elektrisk støt. Hvis vann eller fremmedlegemer kommer inn i enheten, oppher bruk umiddelbart og ta kontakt med nærmeste Sony-forhandler. Sørg spesielt for å følge forholdsreglene under.

- Bruk i nærheten av vask osv.
- Pass på at ikke enheten faller i en vask eller beholder fylt med vann.
- Bruk i regn eller snø, eller på fuktige steder
- Bruk mens du er svett

Hvis du tar på enheten med våte hender, eller plasserer enheten på et vått sted, kan det føre til overopphetning og ukontrollert varme. Ikke ta på hvis enheten, eller den ene eller begge ørestykkene er varme eller lilt. Unngå oppbevaring i direkte sollys.

Ikke bruk enheten hvis den skulle, må du ikke la vaksen komme i kontakt med hud eller øyne. Hvis dette skjer, må du vaske området med rikelige mengder vann og oppsøke lege.

Ørestykkene er magnetiske. Ikke bruk enheter med pacemaker, programmerbar medisinsk enhet eller annet medisinsk elektronisk utstyr. Magnetfelter i nærheten av en mikrobølgeovn, stasjonær trådløs LAN-enhet eller annet utstyr som forstyrrer, kan føre til at lydkvaliteten blir forringet.

Ikke bruk enheten på steder med ekstreme temperaturer, for eksempel direkte sollys, nær varmeovner eller i biler parkert i direkte sollys, da det kan føre til overopphetning og ukontrollert varme.

Ikke bruk enheten på steder med mye støv, da det kan føre til skade på enheten.

Ikke bruk enheten hvis du har lidd av hørselstap eller andre hørselsproblemer
