PAIRING
JUMLAGE

The headset and transmitter are paired out of the box, indicated by a solid LED on the transmitter. If your transmitter's LED is double-blinking, follow the steps to pair your headset and transmitter.

Le casque et l'émetteur mini devraient déjà être appariés, ce qui indique un voyant fixe sur l'émetteur. Si le voyant de votre émetteur clignote deux fois, suivez les étapes pour appairer votre casque et votre émetteur.

1 Connect your Stealth™ 600 Gen 2 for PlayStation™ Transmitter into an available USB port on your PlayStation™ 4 console. Your Transmitter will begin to double blink blue as it searches for your Headset.

2 Power on your Stealth™ 600 Gen 2 for PlayStation™ Headset and the LED will begin to double blink blue as it searches for your Transmitter.

Allumez votre casque Stealth™ 600 Gen 2 pour PlayStation® et le voyant LED commencera à clignoter deux fois en bleu, indiquant qu'il cherche votre émetteur.

3 Within 10 seconds, the Transmitter's and Headset's LED's remain solid, indicating a successful pairing.

Dans les 10 secondes qui suivent, les voyants LED de l'émetteur et du casque resteront fixes, ce qui indique qu'ils ont bien été appariés.

After 30 seconds, your transmitter will search for both the previously paired headset or any available Stealth™ 600 Gen 2 headset to pair to. Bring the two units closer together to ensure faster pairing.

Au bout de 30 secondes, votre émetteur cherchera le casque apparié précédemment ou n'importe quel casque Stealth™ 600 Gen 2 disponible avec lequel s'appairer. Approchez les deux unités pour un appariage plus rapide.

Regulatory Compliance Statements for Stealth™ 600P Gen 2 RX & TX

Local Restrictions on Radio Usage
Caution: Due to the fact that the frequencies used by wireless devices may not yet be harmonized in all countries, these radio products are designed for use only in specific countries, and are not allowed to be operated in countries other than those of designated use. As a user of these products, you are responsible for ensuring that the products are used only in the countries for which they were intended and for verifying that they are configured with the correct selection of frequency and channel for the country of use. Any deviation from the permissible power and frequency settings for the country of use is an infringement of national law and may be punished as such.

To determine whether you are allowed to use your wireless network device in a specific country, please check to see if the radio type number that is printed on the identification label of your device is listed in the manufacturer's OEM Regulatory Guidance document at the following URL: <http://www.turtlebeach.com/homologation> or contact Turtle Beach directly.

Federal Communications Commission (FCC) Compliance Notices
This section includes the following FCC statements for the Stealth™ 600P Gen 2 RX & TX:
• FCC ID: X305-TB31419RX & X305-TB31417TX • Non-Modification Statement
• Class B Interference Statement • RF Radiation Exposure & Hazard Warning

Class B Interference Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. The limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment doesn't cause harmful interference to radio/television reception, which can be diagnosed by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

FCC Caution
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Radiation Exposure & Hazard Statements
To ensure compliance with FCC RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) from all persons. Using higher gain antennas and types of antennas not covered under the FCC certification of this product is not allowed. Installers or the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Non-Modification Statement
Use only the supplied internal antenna. Unauthorized antennas, modifications, or attachments could damage the Stealth™ 600P Gen 2 RX & TX Models and violate FCC regulations. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. Please contact Turtle Beach for a list of approved 2.4 GHz antennas.

This product is compliant with the Consumer Product Safety Improvement Act of 2008, Public Law 110-314 (CPSIA)

Canadian ICES Statements (IC)

3879-A-310/000 and IC: 3879-A-311/170
This device complies with ICES-003 and RSS-247 of Industry Canada. Operation is subject to the following two conditions:
1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operations of the device.

Ce dispositif est conforme aux normes NMB003 et CNB-247 d'Industrie Canada
Ce dispositif est conforme aux normes NMB003 et CNB-247 d'Industrie Canada
Ce dispositif est conforme aux normes NMB003 et CNB-247 d'Industrie Canada
1. Ce dispositif ne doit pas causer d'interférences nuisables et,
2. Il doit pouvoir accepter les interférences, incluant celles pouvant nuire à son fonctionnement normal.
To prevent radio interference to the licensed service (i.e. co-channel Mobile Satellite system) this device is intended to be operated indoors and away from windows to provide maximum shielding. Equipment for its transmit antenna that is installed outdoors is subject to licensing and not supported by Stealth™ 600P Gen 2 RX & TX Models.
Pour éviter les interférences radio au service autorisé (i.e. 3-G), les systèmes par satellite mobile co-canal, cet appareil est destiné à fonctionner à l'intérieur et à l'éloignement des fenêtres pour assurer un blindage maximal. L'équipement (ou son antenne d'émission) installé à l'extérieur est soumis à l'octroi de licences et n'est pas en charge par les modèles Stealth™ 600P Gen 2 RX & TX.

RF Radiation Exposure & Hazard Statement
To ensure compliance with FCC RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) away from all persons. Using higher gain antennas and types of antennas not covered under the FCC certification of this product is not allowed. Installers of the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
Exposition aux radiations RF & Mention de danger
Pour assurer la conformité avec les exigences RSS-102 d'exposition aux RF (Radio Fréquences), cet appareil doit être installé dans un endroit où l'antenne de l'appareil sera à une distance de plus de 2 cm (0,8 pou) de toutes personnes. L'utilisation d'antennes de gain plus élevée et les types d'antennes qui ne sont pas couverts en vertu de la certification IC/IC de ce produit n'est pas autorisée. Les installateurs de la radio et les utilisateurs du produit final doivent se conformer aux instructions d'installation fournies dans ce manuel. Cet émetteur ne doit pas être co-implanté ou exploité en conjonction avec toute autre antenne ou transmetteur.
